

Submission on WA Climate Policy

Email to climate@dwer.wa.gov.au

Visit <https://consult.dwer.wa.gov.au/climatechange/issues-paper/>

1. My details

MIKE NEUNUEBEL

2. My motivation for making a submission

HELP TO GUIDE THE GOVERNMENT OF THE DAY TO THINK TO THE FUTURE OF MY KIDS AND OF THE PLANET. TO KEEP A GREEN SOUTHWEST WA. AND A CLEAN WATERWAYS AND OCEAN FOR ALL TO ENJOY, AND SUSTAIN THE ECOSYSTEMS OF WA. HELP THE PEOPLE TO LIVE INTO THE FUTURE AROUND THE PLANET BY PROTECTING WHAT WE HAVE HERE IN AUSTRALIA, WHICH WILL HELP THE CLIMATE TO STAY LOWER THAN THE HEAT WE ARE HEADING FOR.

3. My opinion on the state of West Australian climate policy or environmental conservation in 2019

- * STOP Logging ANCIENT FOREST OF THE SOUTHWEST OF WA.
- * RETRAIN FOR Agro Forestry-
- * STOP THE LARGE BURNS OF OUR BUSH (PROSCRIBED)
- * DO NOT ALLOW THE OIL DRILLING OF THE RIGHT.
- * DO NOT ALLOW FRACKING IN THE COUNTRY
- * REGULATE THE LNG. PROCESS IN THE NORTHWEST TO LOWER THEIR CARBON FOOT PRINT.
- * MORE MONEY SPENT ON RENEWABLE ENERGY LIKE SOLAR, WIND, TIDE.

4. The most important things I would like to see included in WA's 2020 climate policy are:

- ① NEED TO PROTECT NATIVE AN ANCIENT FOREST WHICH MEANS STOP THE BURNS
- ② STOP THE GREED OF L.N.G AND LOWER THE CARBON FOOTPRINT OF THE OPERATION
- ③ TO NOT ALLOW DRILLING FOR OIL IN THE GREAT AUSTRALIAN BIGHT, ITS A FRAGILE ENVIRONMENT ON OUR SOUTH COAST AND FOR THE MOST PART, PRESTINE. LETS NO SACRIFICE THIS FOR A OLD FUEL SOURCE
- ④ MORE RENEWABLE ENERGY IN OUR STATE WE HAVE THE POTENTIAL TO LEAD THE WORLD IN SOLAR WIND & TIDAL POWER.
- ⑤ STOP THE COAL FOR GREED, COAL IS A DIRTY ENERGY SOURCE AND NEEDS TO BE FACED OUT.

5. The opportunities good climate policy can bring to WA and good examples I know of include:

TOURISM FOR TALL TREES & CLEAN OCEANS
ANCIENT FOREST CARRY CARBON WAY BETTER
LEAD THE WORLD BY EXAMPLE TO CLEAN
ENERGY, AND SUSTAINABLE FOREST MANAGED
PLANTATIONS AND ABANDON PRESCRIBED BURNS

RULE OUT NATIVE FOREST BIOENERGY
PROTECT NATIVE FOREST AS BIODIVERSE CARBON
ZONES
STOP CLEAR FELLING AND CARBON RELEASE ON
BURNING OF FOREST BRANCHES & REJECT LOGS

6. My comments on the Issues paper include

THINK ABOUT THE GREED OF MONEY
OVER THE ENVIRONMENT, WHICH IS OUR
FUTURE

AUSTRALIA SHOULD PLAY A SIGNIFICANT ROLE
IN REDUCING GLOBAL WARMING BY PROTECTING
AND RESTORING OUR CARBON PENSE FOREST.

7. Conclusion

STOP THE GREED
LOOK TO THE ENVIRONMENT PROTECTION
LOOK TO THE FUTURE OF OUR
RIDS AND THE PLANET
