

POLICE SERVICE CERTIFICATION OF FINANCIAL STATEMENTS FOR THE YEAR **ENDED 30 JUNE 2014**

The accompanying financial statements of the Police Service have been prepared in compliance with the provisions of the Financial Management Act 2006 from proper accounts and records to present fairly the financial transactions for the financial year ending 30 June 2014 and the financial position as at 30 June 2014.

At the date of signing we are not aware of any circumstances which would render any particulars included in the financial statements misleading or inaccurate.

KARL J O'CALLAGHAN APM Commissioner of Police

SANTA CARDENIA

Acting Director of Finance (Chief Finance Officer)

21 August 2014

STATEMENT OF COMPREHENSIVE INCOME FOR THE YEAR ENDED 30 JUNE 2014

The schedule of Assets and Liabilities by service should be read in conjunction with the accompanying notes.

1. AUSTRALIAN ACCOUNTING STANDARDS

General

The Police Service's financial statements for the year ended 30 June 2014 have been prepared in accordance with Australian Accounting Standards. The term 'Australian Accounting Standards' refers to Standards and Interpretations issued by the Australian Accounting Standards Board (AASB).

The Police Service has adopted any applicable, new and revised Australian Accounting Standards from their operative dates.

Early adoption of standards

The Police Service cannot early adopt an Australian Accounting Standard unless specifically permitted by Treasurer's Instruction (TI) 1101 'Application of Australian Accounting Standards and Other Pronouncements'. No Australian Accounting Standards that have been issued or amended but not yet operative have been early adopted by the Police Service for the annual reporting period ended 30 June 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) General statement

The financial statements constitute general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, the Framework, Statements of Accounting Concepts and other authoritative

pronouncements of the Australian Accounting Standards Board as applied by the Treasurer's Instructions. Several of these are modified by the Treasurer's Instructions to vary application, disclosure, format and wording.

The Financial Management Act 2006 and the TIs are legislative provisions governing the preparation of financial statements and take precedence over the Australian Accounting Standards, the Framework, Statements of Accounting Concepts and other authoritative pronouncements of the Australian Accounting Standards Board.

Where modification is required and has had a material or significant financial effect upon the reported results, details of that modification and the resulting financial effect are disclosed in the notes to the financial statements.

(b) Basis of preparation

The financial statements have been prepared on the accrual basis of accounting using the historical cost convention, except for land and buildings which have been measured at fair value.

The accounting policies applied in the preparation of the financial statements have been consistently applied throughout all periods presented unless otherwise stated.

The financial statements are presented in Australian dollars and all values are rounded to the nearest thousand dollars (\$'000) or in certain cases, to the nearest dollar.

The judgements that have been made in the process of applying the Police Service's accounting policies that have the most significant effect on the amounts recognised in the financial statements are disclosed at Note 3 'Judgements made by management in applying accounting policies'.

The key assumptions made concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are disclosed at Note 4 'Key sources of estimation uncertainty'.

(c) Reporting entity

The reporting entity comprises the Police Service. The Police Service is a not-for-profit reporting entity.

Mission

The mission of the Police Service and the outcome of its policing activities are "to enhance the quality of life and wellbeing of all people in Western Australia by contributing to making our State a safe and secure place".

The Police Service is mainly funded by Parliamentary appropriations supplemented by fees charged on a cost-recovery basis including police clearance certificates, firearms licensing, security services, private prosecution reports, freedom of information reports, conviction records and crash information.

Services

The Police Service provides the following services:

Service 1: Intelligence and Protective Services

Incorporating a range of specialist criminal intelligence analysis techniques and partnerships to target offenders and crime hot spots in order to ensure safety in the community, prevent and reduce crime.

Service 2: Crime Prevention and Public Order

Providing general support to the community including a visible police presence and crime prevention activities.

Service 3: Community Support (non-offence incidents)

Providing support to the community, which involves provision of general information over the telephone, counter or in person, responding to public enquiries, handling non-offence related matter and incidents.

Service 4: Emergency Management and Coordination

Responding in timely and effective manner to a range of emergencies and disasters to increase public feelings of safety and security.

Service 5: Response to and Investigation of Offences

Providing a timely response and effectively investigating offences to bring individuals who commit offences before the justice system.

Service 6: Services to the Judicial Process

Providing effective services to the judicial process is essential in bringing offenders before the criminal justice system.

Service 7: Traffic Law Enforcement and Management

Providing traffic management and road safety strategies contributes to the whole-of-government initiative of improving road user behaviour and minimizing road fatalities and injuries.

The Police Service administers assets, liabilities, income and expenses on behalf of Government which are not controlled by, nor integral to the function of, the Police Service. These administered balances and transactions are not recognised in the principal financial statements of the Police Service but schedules are prepared using the same basis as the financial statements and are presented in Note 43 'Schedule of administered items'.

(d) Contributed equity

AASB Interpretation 1038 'Contributions by Owners Made to Wholly-Owned Public Sector Entities' requires transfers in the nature of equity contributions to be designated by the Government (owner) as contributions by owners (at the time of, or prior to transfer) before such transfers can be recognised as equity contributions in the financial statements. Capital appropriations have been designated as contributions by owners by TI 955 'Contributions by Owners made to Wholly Owned Public Sector Entities' and have been credited directly to Contributed Equity.

Transfer of net assets to/from other agencies are designated as contributions by owners where the transfers are non-discretionary and non-reciprocal. See Note 32 'Equity'.

(e) Income

Revenue Recognition

Revenue is recognised and measured at the fair value of consideration received or receivable. Revenue is recognised for the major business activities as follows:

Sale of Goods

Revenue is recognised from the sale of goods and disposal of other assets when the significant risks and rewards of ownership control transfer to the purchaser and can be measured reliably.

Rendering of Services

Revenue is recognised upon the delivery of the service to the customer or by reference to the stage of completion of the transaction.

Service Appropriations

Service Appropriations are recognised as revenues at fair value in the period in which the Police Service gains control of the appropriated funds. The Police Service gains control of appropriated funds at the time those funds are deposited into the Police Service's bank account or credited to the 'Amounts receivable for services' (holding account) held at Treasury. See Note 16 'Service appropriation' for further detail.

ANNUAL REPORT ### //

Net Appropriation Determination

The Treasurer may make a determination providing for prescribed revenues to be retained for services under the control of the Police Service. In accordance with the determination specified in the 2013-14 Budget Statements, the Police Service retained \$45.307 million in 2013-14 (\$46.932 million in 2012-13) from the following:

- Proceeds from fees and charges
- Recoups of services provided
- Commonwealth specific-purpose grants
- State Government grants
- Sponsorships and donations
- Proceeds from the sale of motor vehicles
- One-off gains with a value less than \$15,000 from the sale of property other than real property.

Grants and Other Contributions

Revenue is recognised at fair value when the Police Service obtains control over the assets comprising the contributions which is usually when cash is received.

Other non-reciprocal contributions that are not contributions by owners are recognised at their fair value. Contributions of services are only recognised when a fair value can be reliably determined and the services would be purchased if not donated.

Royalties for Regions funds are recognised as revenue at fair value in the period in which the Police Service obtains control over the funds. The Police Service gains control of funds at the time the funds are deposited into the Police Service's bank account.

Gains

Realised or unrealised gains are usually recognised on a net basis. These include gains arising on the disposal of noncurrent assets.

(f) Property, plant and equipment

Capitalisation/Expensing of assets

Land vested within the Police Service is capitalised irrespective of value.

All other items of property, plant and equipment costing \$5,000 or more are recognised as assets. The cost of utilising these assets is expensed (depreciated) over their useful lives. Items of property, plant and equipment costing less than \$5,000 are immediately expensed directly to the Statement of Comprehensive Income.

Initial recognition and measurement

All items of property, plant and equipment are initially recognised at cost.

For items of property, plant and equipment acquired at no cost or for nominal consideration, cost is their fair value at the date of acquisition.

Subsequent measurement

Subsequent to initial recognition as an asset, the revaluation model is used for the measurement of land and buildings and historical cost for all other property, plant and equipment. Land and buildings at 30 June 2014 are carried at the fair value less accumulated depreciation on buildings and accumulated impairment losses. All other items of property, plant and

equipment are carried at historical cost less accumulated depreciation and accumulated impairment losses.

Where market-based evidence is available, the fair value of land and buildings is determined on the basis of current market buying values determined by reference to recent market transactions. When buildings are revalued by reference to recent market transactions, the accumulated depreciation is eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount.

Where market evidence is not available, the fair value of land and buildings is determined on the basis of existing use. This normally applies where buildings are specialised or where land use is restricted. Fair value for existing use assets is determined by reference to the cost of replacing the remaining future economic benefits embodied in the asset, i.e. the depreciated replacement cost. When buildings are revalued, the accumulated depreciation is eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount.

Independent valuations of land and buildings is provided on an annual basis by the Western Australian Land Information Authority (Landgate) and recognised annually to ensure that the carrying amount does not differ materially from the asset's fair value at the end of the reporting period.

The most significant assumptions in estimating fair value are made in assessing whether to apply the existing use basis to assets and determining estimated useful life. Professional judgement by the valuer is required where evidence does not provide a clear distinction between market type assets and existing use assets.

Derecognition

Upon disposal or derecognition of an item of land and building, any revaluation surplus relating to that asset is transferred to Accumulated surplus.

Asset revaluation surplus

The asset revaluation surplus is used to record increments and decrements on the revaluation of non-current assets as described in Note 27 'Property, plant and equipment'.

Depreciation

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner that reflects the consumption of their future economic benefits.

Land is not depreciated. Depreciation is provided for on either a straight-line basis net of residual values as is the case for vehicle, aircraft and vessels or on a straight line for all other plant and equipment. Depreciation rates are reviewed annually and the useful lives for each class of depreciable asset are:

Class of Assets	Years
Buildings	
- Buildings	50
- Transportables	20
Computing and Communication Equipment	
- Computing Software and Hardware	4 to 7
- Radio Network and Equipment	7 to 25
- Radio Site Infrastructure and	
Equipment	10 to 25
- Communication Equipment	7

Plant,	Equipment and Venicles	
-	Office Equipment	7
-	Furniture and Fittings	10
-	Aircraft	20
-	Vessels	10 to 15
-	Dogs and Horses	8 to 20
-	Motor Vehicles and Cycles	5
-	All Other Vehicles	7
-	Audio-Visual Equipment	7
-	Photographic and Traffic Equipment	8
-	Firearms and Scientific Equipment	10

Faurinment and Vahialas

- Other Plant and Equipment

Works of Art controlled by the Police Service are classified as property, plant and equipment. They are anticipated to have very long and indeterminate useful lives. Their service potential has not, in any material sense, been consumed during the reporting period. As such, no amount for depreciation has been

(g) Intangible assets

recognised in respect of them.

Leasehold Improvements

Capitalisation/expensing of assets

Acquisitions of intangible assets (being software licences) costing \$5,000 or more and other internally developed intangible assets costing \$50,000 or more are capitalised. The costs of utilising the assets is expensed (amortised) over their useful life. Costs incurred below these thresholds are expensed directly to the Statement of Comprehensive Income.

All acquired and internally developed intangible assets are initially recognised at cost. For assets acquired at no cost or for nominal consideration, cost is their fair value at the date of acquisition.

The cost model is applied for subsequent measurement requiring the asset to be carried at cost less any accumulated amortisation and accumulated impairment losses.

Amortisation

Amortisation for intangible assets with finite useful lives is calculated for the period of the expected benefit (estimated useful life) on the straight-line basis using rates which are reviewed annually. All intangible assets controlled by the Police Service have a finite useful life and zero residual value. The expected useful lives for each class of intangible asset are:

Licences	4 years
Software and related system developments	8 years

Licences

10

3 to 10

Licences have a finite useful life and are carried at cost less accumulated amortisation and accumulated impairment losses.

System developments

For system developments, research costs are expensed as incurred. Development costs incurred on an individual project are carried forward when their future recoverability can reasonably be regarded as assured and that the total project costs are likely to exceed \$50,000. Other development expenditures are expensed as incurred.

Computer software

Software that is an integral part of the related hardware is treated as property, plant and equipment. Software that is not an integral part of the related hardware is treated as an intangible asset. Software costing less that \$5,000 is expensed in the year of acquisition.

In some cases, base software is purchased and then reconfigured to the needs of the Police Service. These are treated in accordance with system development policies.

(h) Impairment of assets

Property, plant and equipment, and intangible assets are tested for any indication of impairment at the end of each reporting period. Where there is an indication of impairment, the recoverable amount is estimated. Where the recoverable amount is less than the carrying amount, the asset is written down to the recoverable amount and an impairment loss is recognised in the Statement of Comprehensive Income. As the Police Service is a not-for-profit entity, unless an asset has been identified as a surplus asset, the recoverable amount is the higher of an asset's fair value less costs to sell and depreciated replacement cost.

The risk of impairment is generally limited to circumstances where an asset's depreciation is materially understated, where the replacement cost is falling or where there is a significant change in useful life. Each relevant class of assets is reviewed annually to verify that the accumulated depreciation/amortisation reflects the level of consumption or expiration of an asset's future economic benefits and to evaluate any impairment risk from falling replacement costs.

Intangible assets with an indefinite useful life and intangible assets not yet available for use are tested for impairment at the end of each reporting period irrespective of whether there is any indication of impairment.

The recoverable amount of assets identified as surplus assets is the higher of fair value less costs to sell and the present value of future cash flows expected to be derived from the asset. Surplus assets carried at fair value have no risk of material impairment where fair value is determined by reference to market-based evidence. Where fair value is determined by reference to depreciated replacement cost, surplus assets are at risk of impairment and the recoverable amount is measured. Surplus assets at cost are tested for indications of impairment at the end of each reporting period.

(i) Non-current assets (or disposal groups) classified as held for sale

Non-current assets (or disposal groups) held for sale are recognised at the lower of carrying amount and fair value less costs to sell and are presented separately from other assets in the Statement of Financial Position. These assets are not depreciated or amortised while they are classified as held for sale.

All land holdings are Crown land vested in the Police Service by the Government. The Department of Lands (DoL) is the only agency with the power to sell Crown land. The Police Service transfers Crown land and their buildings to the DoL when the assets become available for sale.

(i) Leases

The Police Service holds a number of operating leases for buildings and office equipment. Lease payments are expensed on a straight-line basis over the lease term as this represents the pattern of benefits derived from the lease properties.

(k) Financial instruments

In addition to cash, the Police Service has two categories of financial instrument:

- · Receivables; and
- · Financial liabilities measured at amortised cost.

These have been disaggregated into the following classes:

Financial Assets

- · Cash and cash equivalents
- · Restricted cash and cash equivalents
- Receivables
- Amount receivable for services
- Derivative Financial Instruments

Financial Liabilities

- Payables
- Accrued Expenses
- Derivative Financial Instruments

The fair value of short-term receivable and payables is the transaction cost or the face value because there is no interest rate applicable and subsequent measurement is not required as the effect of discounting is not material.

Derivative Financial Instruments

The Police Service has entered into a number of forward foreign exchange contracts that do not qualify for hedge accounting. Derivative financial instruments are initially recognised at fair value and are subsequently remeasured to their fair value at each reporting date. Changes in the fair value of derivative financial instruments are included in the Statement

of Comprehensive Income to the extent that hedge accounting is not applied. Fair value is based on the quoted spot rates at the reporting date.

(I) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents (and restricted cash and cash equivalents) include cash on hand and cash deposits that are readily convertible to a known amount of cash and are subject to insignificant risk of changes in value.

Restricted cash assets are those cash assets, the uses of which are restricted, wholly or partly, by regulations or externally imposed requirements.

(m) Amounts receivable for services (Holding account)

The Police Service receives appropriation funding on an accrual basis that recognises the full annual cash and non-cash cost of services. The appropriations are paid partly in cash and partly as an asset (Holding account receivable) that is accessible on the emergence of the cash funding requirement to cover items such as leave entitlements and asset replacement. See also Note 16 'Service appropriation' and Note 23 'Amounts receivable for services'.

(n) Receivables

Receivables are recognised at original invoice amount less an allowance for uncollectable amounts (i.e. impairment). The collectability of receivables is reviewed on an ongoing basis and any receivables identified as uncollectable are written off against the allowance account. The allowance for uncollectable amounts (doubtful debts) is raised when there is objective

evidence that the Police Service will not be able to collect the debts. The carrying amount is equivalent to fair value as it is due for settlement within 30 days. See also Note 2(k) 'Financial instruments' and Note 22 'Receivables'.

(o) Inventories

Inventories include those items held for distribution and are measured at the lower of cost and net realisable value. The values have been confirmed through an annual stocktake.

(p) Payables

Payables, including accruals not yet billed, are recognised when the Police Service becomes obliged to make future payments as a result of a purchase of assets or services. The carrying amount is equivalent to fair value, as they are generally settled within 30 days. See Note 35 'Financial instruments'.

(q) Accrued salaries

The accrued salaries suspense account (refer Note 21(b) 'Restricted cash and cash equivalents') consists of amounts paid annually into a suspense account over a period of ten financial years to largely meet the additional cash outflow in each eleventh year when 27 pay days occur in that year instead of the normal 26. No interest is received on this account.

Accrued salaries (refer Note 31 'Payables and accruals') represent the amount due to staff but unpaid at the end of the financial year, as the pay date for the last pay period for that financial year does not coincide with the end of the financial year. Accrued salaries are settled within a fortnight of the financial year-end. The Police Service considers the carrying amount of accrued salaries to be equivalent to the net fair value. For 2014, the accrued salaries calculation is based on seven working days, as the last pay day was 19 June.

(r) Provisions

Provisions are liabilities of uncertain timing and amount. The Police Service only recognises provisions where there is a present legal or constructive obligation as a result of a past event and when the outflow of economic benefits is probable and can be measured reliably. Provisions are reviewed at the end of each reporting period. Refer Note 30 'Provisions'.

Provisions - Employee benefits

All annual and long service leave provisions are in respect of employees' services up to the end of the reporting period.

Annual leave

Annual leave is not expected to be settled wholly within 12 months after the end of the reporting period and is therefore considered to be 'other long-term employee benefits'. The annual leave liability is recognised and measured at the present value of amounts expected to be paid when the liabilities are settled using remuneration rates expected to apply at the time of settlement.

When assessing expected future payments consideration is given to expected future wage and salary levels including non-salary components such as superannuation contributions, as well as the experience of employee departures and periods of service. The expected future payments are discounted using market yields at the end of the reporting period on national government bonds with terms to maturity that match, as closely as possible, the estimated future cash outflows.

The provision for annual leave is classified as a current liability as the Police Service does not have an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

The provision for annual leave loading represents the present amount payable for annual leave loading accrued up to April 2011 for Public Service and Wages employees. This entitlement is measured in accordance with annual leave above. In April 2011, the Public Service and Government Officers General Agreement was amended so that annual leave loading shall be paid to Public Service employees on the first pay period in December in the calendar year in which the leave accrues.

For Police Officers, Police Auxiliary Officers and Public Service employees, the annual leave loading is reported as an accrued expense as payment is made annually irrespective of whether leave is taken.

Long service leave

Long service leave is not expected to be settled wholly within 12 months after the end of the reporting period is recognised and measured at the present value of amounts expected to be paid when the liabilities are settled using remuneration rates expected to apply at the time of settlement.

When assessing expected future payments consideration is given to expected future wage and salary levels including non-salary components such as superannuation contributions, as well as the experience of employee departures and periods of service. The expected future payments are discounted using market yields at the end of the reporting period on national government bonds with terms to maturity that match, as closely as possible, the estimated future cash outflows.

Unconditional long service leave provisions are classified as current liabilities as the Police Service does not have an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period. Pre-conditional and conditional long service leave provisions are classified as non-current liabilities because the Police Service has an unconditional right to defer the settlement of the liability until the employee has completed the requisite years of service.

38-hour leave liability

The provision for 38-hour leave liability represents a commitment by Cabinet in 1986 to honour an agreement to accrue additional hours worked between 1 January and 30 September 1986. This was after the Government of the day granted a 38-hour week to Police Officers, back-dated to 1 January 1986.

The hours accrued are generally payable on retirement, resignation or termination. This liability is measured on the same basis as long service leave.

Special paid leave

The provision for special paid leave represents the negotiated leave entitlement to police officers who previously accrued long service leave on a ten-year basis prior to the accrual period changing to seven years. This liability is measured on the same basis as annual leave.

Time off in lieu

This liability represents accumulated days off (time off in lieu) expected to be paid out within two months of the reporting date and is measured on the same basis as annual leave.

Sick leave

No provision is made for non-vesting sick leave as the sick leave taken each reporting period is less than the entitlement accruing, and this is expected to continue in future reporting periods.

Deferred leave

The provision for deferred leave relates to Public Service employees who have entered into an agreement to self-fund an additional twelve months leave in the fifth year of the agreement. The provision recognises the value of salary set aside for employees to be used in the fifth year. This liability is measured on the same basis as annual leave. Deferred leave is reported as a current provision as employees can leave the scheme at their discretion at any time.

Purchased leave

The provision for purchased leave relates to Public Service employees who have entered into an agreement to self-fund up to an additional ten weeks leave per calendar year. The provision recognises the value of salary set aside for employees and is measured at the nominal amounts expected to be paid when the liabilities are settled. This liability is measured on the same basis as annual leave.

Post-separation medical benefits

The provision for post-separation medical benefits relates to the cost of providing medical benefits to injured Police Officers after they cease work with the Police Service. Medical benefits expected to be settled within 12 months after the reporting date are recognised and measured at the undiscounted amounts expected to be paid when the liabilities are settled.

Medical benefits expected to be settled more than 12 months after reporting date are measured at the present value of amounts expected to be paid when the liabilities are settled.

An actuarial assessment of the amounts expected to be settled was performed at 30 June 2012.

Superannuation

The Government Employees Superannuation Board (GESB) and other funds administer the public sector superannuation arrangements in Western Australia in accordance with legislative requirements. Eligibility criteria for membership in particular schemes for public sector employees varies according to commencement and implementation dates.

Eligible employees contribute to the Pension Scheme, a defined benefit pension scheme closed to new members since 1987, or the Gold State Superannuation Scheme (GSS), a defined benefit lump sum scheme closed to new members since 1995.

The GSS is a defined benefit scheme for the purposes of employee and whole-of-government reporting. However, it is a defined contribution plan for agency purposes because the concurrent contributions (defined contributions) made by the Police Service to GESB extinguishes the Police Service's obligations to the related superannuation liability.

The Police Service has no liabilities under the Pension Scheme or the GSS Scheme. The liabilities for the unfunded Pension Scheme and the unfunded GSS Scheme transfer benefits attributable to members who transferred from the Pension Scheme, are assumed by the Treasurer. All other GSS Scheme obligations are funded by concurrent contributions made by the Police Service to the GESB.

Employees commencing employment prior to 16 April 2007 who are not members of either the Pension or the GSS Scheme became non-contributory members of the West State Superannuation Scheme (WSS). Employees commencing employment on or after 16 April 2007 became members of the GESB Super Scheme (GESBS). From 30 March 2012, existing members of the WSS or GESBS and new employees became able to choose their preferred superannuation fund. The Police Service makes concurrent contributions to GESB or other funds on behalf of employees in compliance with the Commonwealth Government's Superannuation Guarantee (Administration) Act 1992. Contributions to these accumulation schemes extinguish the Police Service's liability for superannuation charges in respect of employees who are not members of the Pension Scheme or GSS.

The GESB makes all benefit payments in respect of the Pension and GSS Schemes, and is recouped by the Treasurer for the employer's share.

See also Note 2(s) 'Superannuation expense'.

Provisions - Other

Employment on-costs

Employment on-costs, including workers' compensation insurance, are not employee benefits and are recognised separately as liabilities and expenses when the employment to which they relate has occurred. Employment on-costs are not included as part of the Police Service's 'Employee benefits expense' and the related liability is included in Employment on-costs provision. The associated expense is included under Note 6 'Employee expenses'.

(s) Superannuation expense

The superannuation expense in the Statement of Comprehensive Income comprises employer contributions paid to the GSS (concurrent contributions), the WSS, the GESBS, or other superannuation funds. The employer contribution paid to the GESB in respect of the GSS is paid back into the Consolidated Account by the GESB.

(t) Assets and services received free-of-charge or for nominal cost

Assets and services received free-of-charge or for nominal value which can be reliably measured are recognised as income at fair value. Where the resource received represents a service that the Police Service would otherwise pay for, a corresponding expense is recognised. Receipts of assets are recognised in the Statement of Financial Position.

Assets or services received from another State Government agency are separately disclosed under 'Income from State Government' in the Statement of Comprehensive Income.

(u) Assets and services provided free-of-charge or for nominal cost

The Police Service provides a range of services free-of-charge to other government agencies. Information on resources provided free-of-charge has not been reported at balance date.

(v) Monies held in trust

The Police Service receives money in a trustee capacity in the form of Found Money, Stolen Monies, Seized Monies and Deceased Estate Monies. As the Police Service only performs a custodial role in respect of these monies, and because the

monies cannot be used for achievement of the Police Service objectives, they are not brought to account in the financial statements, but are reported within the notes to the financial statements (refer Note 44 'Special purpose accounts').

(w) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case, it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with receivables or payables in the Statement of Financial Position.

The GST component of a receipt or payment is recognised on a gross basis in the Statement of Cash Flows.

(x) Comparative figures

Comparative figures are, where appropriate, reclassified to be comparable with the figures presented in the current financial year.

3. JUDGEMENTS MADE BY MANAGEMENT IN APPLYING ACCOUNTING POLICIES

The preparation of financial statements requires management to make judgements about the application of accounting policies that have a significant effect on the amounts recognised in the financial statements. The Police Service evaluates these judgements regularly.

Operating lease commitments

The Police Service has entered into a number of leases for buildings for branch office accommodation. Some of these leases relate to buildings of a temporary nature and it has been determined that the lessor retains substantially all the risks and rewards incidental to ownership. Accordingly, these leases have been classified as operating leases.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

The key estimates and assumptions made concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year include:

Employee provisions estimation

In calculating the Police Service's long service leave provision, several estimations and assumptions have been made. These include expected future salary rates, salary inflation, discount rates, employee retention rates and expected future payments. Any changes in these estimations and assumptions may impact on the carrying amount of the long service leave provision.

Post-separation medical benefits calculations include estimations of future medical payments to ceased police officers. There is uncertainty in the determination of these estimates due to the lack of claims history which could impact on the liability recognised.

5. DISCLOSURE OF CHANGES IN ACCOUNTING POLICY AND ESTIMATES

Initial application of an Australian Accounting Standard

The Police Service has applied the following Australian Accounting Standards effective for annual reporting periods beginning on or after 1 July 2013.

AASB 13	Fair Value Measurement
	This Standard defines fair value, sets out a framework for measuring fair value and requires additional disclosures for assets and liabilities measured at fair value. There is no financial impact.
AASB 119	Employee Benefits
	This Standard supersedes AASB 119 (October 2010), making changes to the recognition, presentation and disclosure requirements. The Police Service has assessed employee leave patterns to determine whether annual leave is a short-term or other long-term employee benefit. The resultant discounting of annual leave liabilities that were previously measured at the undiscounted amounts is not material.
AASB 1048	Interpretation of Standards
	This Standard supersedes AASB 1048 (June 2012), enabling references to the Interpretations in all other Standards to be updated be reissuing the service Standard. There is no financial impact.
AASB 2011-8	Amendments to Australian Accounting Standards arising from AASB 13 [AASB 1, 2, 3, 4, 5, 7, 9, 2009-11, 2010-7, 101, 102, 108, 110, 116, 117, 118, 119, 120, 121, 128, 131, 132, 133, 134, 136, 138, 139, 140, 141, 1004, 1023, & 1038 and Interpretations 2, 4, 12, 13, 14, 17, 19, 131, & 132].
	This Standard replaces the existing definition and fair value guidance in other Australian Accounting Standards and Interpretations as the result of issuing AASB 13 in September 2011. There is no financial impact.
AASB 2011-10	Amendments to Australian Accounting Standards arising from AASB 119 (September 2011) [AASB 1, 8, 101, 124, 134, 1049 & 2011-8 and Interpretation 14].
	This Standard makes amendments to other Australian Accounting Standards and Interpretations as a result of issuing AASB 119 in September 2011. The resultant discounting of annual leave liabilities that were previously measured at the undiscounted amounts is not material.

ANNUAL REPORT ****

AASB 2012-2	Amendments to Australian Accounting Standards – Disclosures – Offsetting Financial Assets and Financial Liabilities [AASB 7 & 132].
	This Standard amends the required disclosures in AASB 7 to include information that will enable users of an entity's financial statements to evaluate the effect or potential effect of netting arrangements, including rights of set-off associated with the entity's recognised financial assets and recognised financial liabilities, on the entity's financial position. There is no financial impact.
AASB 2012-5	Amendments to Australian Accounting Standards arising from Annual Improvements 2009-11 Cycle [AASB 1, 101, 116, 132 & 134 and Interpretation 2].
	This Standard makes amendments to the Australian Accounting Standards and Interpretations as a consequence of the annual improvements process. There is no financial impact.
AASB 2012-6	Amendments to Australian Accounting Standards – Mandatory Effective Date of AASB 9 and Transition Disclosures [AASB 9, 2009-11, 2010-7, 2011-7 & 2011-8].
	This Standard amends the mandatory effective date of AASB 9 Financial Instruments to 1 January 2015 (instead of 1 January 2013). Further amendments are also made to numerous consequential amendments arising from AASB 9 that will now apply from 1 January 2015. There is no financial impact.
AASB 2012-9	Amendment to AASB 1048 arising from the Withdrawal of Australian Interpretation 1039.
	The withdrawal of Interpretation 1039 Substantive Enactment of Major Tax Bills in Australia has no financial impact for the Police Service during the reporting period and at balance date. Measurement of tax assets and liabilities continues to be measured in accordance with enacted or substantively enacted tax law pursuant to AASB 112.46-47
AASB 2012-10	Amendments to Australian Accounting Standards – Transition Guidance and Other Amendments [AASB 1, 5, 7, 8, 10, 11, 12, 13, 101, 102, 108, 112, 118, 119, 127,128, 132, 133, 134, 137, 1023, 1038, 1039, 1049 & 2011-7 and Interpretation 12].
	The Standard introduces a number of editorial alterations and amends the mandatory application date of Standards for not-for-profit entities accounting for interests in other entities. There is no financial impact.
AASB 2013-9	Amendments to Australian Accounting Standards – Conceptual Framework, Materiality and Financial Instruments.
	Part A of this omnibus Standard makes amendments to other Standards arising from revisions to the Australian Accounting Conceptual Framework for periods ending on or after 20 December 2013. Other Parts of this Standard become operative in later periods. There is no financial impact for Part A of the Standard.

42

Future impact of Australian Accounting Standards not yet operative

The Police Service cannot early adopt an Australian Accounting Standard unless specifically permitted by TI 1101 'Application of Australian Accounting Standards and Other Pronouncements'. Consequently, the Police Service has not applied early any following Australian Accounting Standards that have been issued that may impact on the Police Service. Where applicable, these Australian Accounting Standards will be applied from their application date.

The Police Service has determined that there is no or minimal financial impact of the following Standards:

Title	e for reporting periods beginning on/after
Interpretation 21 Levies	1 January 2014
AASB 10 Consolidated Financial Statements *	1 January 2014
AASB 11 Joint Arrangements *	1 January 2014
AASB 12 Disclosure of Interests in Other Entities *	1 January 2014
AASB 127 Separate Financial Statements *	1 January 2014
AASB 128 Investments in Associates and Joint Ventures *	1 January 2014
AASB 1031 Materiality	1 January 2014
AASB 1055 Budgetary Reporting	1 July 2014
AASB 2009-11 Amendments to Australian Accounting Standards arising from AASB 9 [AASB 1, 3, 4, 5, 7, 101, 102, 108, 112, 118, 121, 127, 128, 131, 132, 136, 139, 1023 & 1038 and Interpretation 10 & 12] [modified by AASB 2010-7]	7, 1 January 2015
AASB 2011-7 Amendments to Australian Accounting Standards arising from the Consolidation and Joint Arrangements Standards [AASB 1, 2, 3, 5, 7, 101, 107, 112, 118, 121, 124, 132, 133, 136, 138, 139, 1023 & 1038 and Interpretations 5, 9, 16 & 17] *	1 January 2014
AASB 2012-3 Amendments to Australian Accounting Standards – Offsetting Financial Assets and Financial Liabilities [AASB 132]	ial 1 January 2014
AASB 2013-3 Amendments to AASB 136 – Recoverable Amount Disclosures for Non-Financial Assets	1 January 2014
AASB 2013-4 Amendments to Australian Accounting Standards – Novation of Derivatives and Continuation of Hedge Accounting [AASB 139]	1 January 2014
AASB 2013-8 Amendments to Australian Accounting Standards – Australian Implementation Guidance for Not-for-Profit Entities – Control and Structured Entities [AASB 10, 12 & 1049]	1 January 2014

The Police Service has not yet determined the application or the potential impact of the following Standards:

Title	Operative for reporting periods beginning on/after
AASB 9 Financial Instruments *	1 January 2017
AASB 2010-7 Amendments to Australian Accounting Standards arising from AASB 9 (December 2010) [AASB 1, 3, 4, 5, 7, 101, 102, 108, 112, 118, 120, 121, 127, 128, 131, 132, 136, 137, 139, 1023, & 1038 and Interpretations 2, 5, 10, 12, 19, &127]	1 January 2015
AASB 2013-9 Amendments to Australian Accounting Standards – Conceptual Framework, Materiality and Financial Instruments	1 January 2014 (Part B) 1 January 2017 (Part C)

^{*} Mandatory application of these Standards was deferred by one year for not-for-profit entities.

	Uniforms and protective clothing Medical expenses (c)	4,650 6,627	4,151 5,964
		,	
	Employee housing Relocation and relieving expenses	48,055 7,103	44,044 7,613
	Long service leave (a) Other leave (a) Superannuation - defined contribution plans (b)	23,286 363 76,794	20,623 272 71,554
ъ.	Employee benefits expense Salaries and wages (d) Annual leave (a)	689,603 71,179	630,470 69,310
6.	EMPLOYEE EXPENSES	2014 \$'000	2013 \$'000

- (a) Includes a superannuation contribution component.
- (b) Defined contribution plans include West State, Gold State and GESB Super Scheme (contributions paid).
- (c) Medical expenses includes post-separation medical benefits.
- (d) The salaries and wages expense includes payments in relation to voluntary separations in the amount of \$29.1 million.

7. SUPPLIES AND SERVICES

2013

2014

- (a) Funds received from the Office of Road Safety Road Trauma Trust Account are allocated to the Police Service for road safety initiatives in Western Australia. At 30 June 2014, \$693,238 of funds allocated remains unspent. Under the Memorandum of Understanding, all funds unspent at 30 June 2014 are required to be repaid to the Office of Road Safety. Consequently, \$693,238 included in the revenue figure above is also recognised as an expense in Note 10 'Other expenses'.
- (b) Funds collected under the Criminal Property Confiscation Account are allocated to the Police Service to combat organised crime in Western Australia. At 30 June 2014, \$219,900 of funds allocated remains unspent.

	Department of Transport	7.320	7.756
	- Collection of firearm licences provided by the	72	86
	 Title searches and valuation services provided by the Western Australian Land Information Authority (Landgate) 	347	588
	 Procurement services, building and maintenance project management services and lease management services provided by the Department of Finance 	5,789	5,712
	- Legal services provided by the State Solicitor's Office	1,112	1,370
	Services received free-of-charge is determined by the following estimates provided by agencies:		
18.	SERVICES RECEIVED FREE-OF-CHARGE		
		\$'000	\$'000
		2014	2013

Where assets or services have been received freeof-charge or for nominal cost, the Police Service recognises revenues equivalent to the fair value of the assets and/or the fair value of those services that can be reliably measured and which would have been purchased if not donated, and those fair values shall be recognised as assets or expenses, as applicable. Where the contribution of assets or services are in the nature of contributions by owners, the Police Service makes an adjustment directly to equity.

(i) Land and buildings were revalued as at 1 July 2013 by the Western Australian Land Information Authority (Landgate). The valuations were performed during the year ended 30 June 2014 and recognised at 1 July 2013. In undertaking the revaluation, fair value was determined by reference to market values for land: \$80,080,450 and buildings: \$23,676,000. For the remaining balance, fair value of land and buildings was determined on the basis of depreciated replacement cost. See Note 2(f) 'Property, plant and equipment'.

Information on fair value measurement is provided in Note 29.

ANNUAL REPORT ***

29. FAIR VALUE MEASUREMENTS (cont.)

Valuation processes

There were no changes in valuation techniques during the period.

Transfers in and out of a fair value level are recognised on the date of the event or change in circumstances that caused the transfer. Transfers are generally limited to assets newly classified as non-current assets held for sale as Treasurer's Instructions require valuations of land and buildings to be categorised within Level 3 where the valuations utilise significant Level 3 inputs on a recurring basis.

Fair value for existing use specialised building assets is determined by reference to the cost of replacing the remaining future economic benefits embodied in the asset, ie: depreciated replacement cost is the current replacement cost of an asset less accumulated depreciation calculated on the basis of such cost to reflect the already consumed economic benefit, expired economic benefit or obsolescence of the asset. Current replacement cost is determined by reference to the cost of a substitute asset of comparable utility, the gross project size specifications and the historical cost, adjusted by relevant indices.

Fair value of restricted use land is based on market value, by either using market evidence of sales of comparable land that is unrestricted less restoration costs to return the site to a vacant and marketable condition (low restricted use land), or, comparison with market evidence for land with low level utility (high restricted use land).

Significant Level 3 inputs used by the Police Service are derived and evaluated as follows:

Historical cost per square metre floor area (m²)

The costs of constructing specialised buildings with similar utility are extracted from financial records of the Police Service, then indexed by movements in CPI.

Consumed economic benefit/obsolescence of asset

These are estimated by the Western Australian Land Information Authority (Valuation Services).

Selection of land with low level utility

Fair value for restricted use land is determined by comparison with market evidence for land with low level utility. Relevant comparators of land with low level utility are selected by the Western Australian Land Information Authority (Valuation Services).

Historical cost per cubic metre (m3)

The costs of construction of infrastructure are extracted from financial records of the Police Service and indexed by movements in construction costs by quantity surveyors.

29. FAIR VALUE MEASUREMENTS (cont.)

Information about significant unobservable inputs (Level 3) in fair value measurements

Description and fair value as at 30 June 2014 (\$'000)	Valuation technique(s)	Unobservable inputs	Range of unobservable inputs (average)	Relationship of unobservable inputs to fair value
Land (\$174,531)	Market approach	Selection of land with similar approximate size.	\$0.08 - \$3,585 per m ² (\$116.71 per m ²)	Higher value of similar land increases estimated fair value.
Buildings (\$485,088)	Depreciated Replacement Cost	Consumed economic benefit/obsolescence of asset.	-21.2% - 12% per year (0.22% per year)	Greater consumption of economic benefit or increased obsolescence lowers fair value.
		Historical cost of building per square metre floor area.	\$238.22 - \$10,603.93 per m² (\$2,202.24 per m²)	Higher historical cost per square metre increases fair value.

Reconciliations of the opening and closing balances are provided in Notes 27.

Basis of Valuation

In the absence of market based evidence, due to the specialised nature of some non-financial assets, these assets are valued at Level 3 of the fair value hierarchy on an existing use basis. The existing use basis recognises that restrictions or limitations have been placed on their use and disposal when they are not determined to be surplus to requirements. These restrictions are imposed by virtue of the assets being held to deliver a specific community service and the Police Service's enabling legislation.

32. EQUITY

Equity represents the residual interest in the net assets of the Police Service. The Government holds the equity interest in the Police Service on behalf of the community. The Asset Revaluation Surplus represents that portion of equity resulting from the revaluation of non-current assets.

Contributed equity (a) Asset revaluation surplus (b) Accumulated surplus TOTAL EQUITY	565,275 393,507 214,115 1,172,897	557,040 371,315 194,959 1,123,314

(i) Under TI 955 'Contributions by Owners Made to Wholly Owned Public Sector Entities' Capital appropriations have been designated as contributions by owners in accordance with AASB Interpretation 1038 'Contributions by Owners Made to Wholly-Owned Public Sector Entities'.

32. EQUITY (cont.)

- (ii) Under TI 955, non-discretionary (non-reciprocal) transfers of net assets between State government agencies have been designated as contributions by owners in accordance with AASB Interpretation 1038, where the transferee agency accounts for a non-discretionary (non-reciprocal) transfer of net assets as a contribution by owners and the transferor agency accounts for the transfer as a distribution to owners.
- (iii) TI 955 requires non-reciprocal transfers of net assets to Government to be accounted for as distribution to owners.

- (i) This is the net GST paid/received, i.e. cash transactions.
- (ii) This reverses out the GST in receivables and payables.
- (iii) The Australian Taxation Office (ATO) receivables/payables in respect of GST and the receivables/payables in respect of the sale/purchase of non-current assets are not included in these items as they do not form part of the reconciling items.

33. NOTES TO THE STATEMENT OF CASH FLOWS (cont.)

(c) NON-CASH FINANCING AND INVESTING ACTIVITIES

During the financial year, the Police Service received donated assets from external parties totalling \$736,965 compared to \$486,242 in 2012-13.

During the year, there were no assets transferred to Department for Lands compared to \$350,467 in 2012-13. In addition, there were no assets transferred to other government agencies in 2013-14 and 2012-13.

\$'000	\$'000

34. COMMITMENTS (cont.)

(c) OTHER EXPENDITURE COMMITMENTS

Other expenditure commitments at the reporting date arising through the placement of purchase orders or non-cancellable agreements and are payable as follows:

	237,906	188,015
Later than five years	2,136	
Later than one year and not later than five years	171,404	143,896
Within one year	64,366	44,119

The above commitments are all inclusive of GST.

35. FINANCIAL INSTRUMENTS

(a) FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Financial instruments held by the Police Service are cash and cash equivalents, restricted cash and cash equivalents, receivables, payables and derivative financial instruments. All of the Police Service's cash is held in the public bank account (non-interest bearing). The Police Service has limited exposure to financial risks. The Police Service's overall risk management program focuses on managing the risks identified below.

Credit risk

Credit risk arises when there is the possibility of third parties defaulting on their contractual obligations resulting in financial loss to the Police Service.

The maximum exposure to credit risk at reporting date in relation to each class of recognised financial assets is the gross carrying amount of those assets inclusive of any provisions for impairment, as shown in the table at Note 35(c).

35. FINANCIAL INSTRUMENTS (cont.)

Credit risk associated with the Police Service's financial assets is minimal because the main receivable is the amounts receivable for services (Holding Account). For receivables other than from Government, the Police Service recovers costs associated with providing services and has policies in place to ensure that receivable balances are monitored on an ongoing basis to mitigate exposure to bad debt. Overall, there are no significant concentrations of credit risk.

Allowance for impairment of receivables is determined by reviewing each debt at reporting date and assessing its collectability.

Liquidity risk

Liquidity risk arises when the Police Service is unable to meet its financial obligations as they fall due. The Police Service is exposed to liquidity risk through its trading in the normal course of business.

The Police Service has appropriate procedures to manage cash flows including drawdowns of appropriations by monitoring forecast cash flows to ensure that sufficient funds are available to meet its commitments.

Market risk

The Police Service is not exposed to interest rate risk because cash and cash equivalents and restricted cash are non-interest bearing and have no borrowings.

60 ANNUAL REPORT

2014	2013
\$'000	\$'000

35. FINANCIAL INSTRUMENTS (cont.)

(b) CATEGORIES OF FINANCIAL INSTRUMENTS

In addition to cash, the carrying amounts of each of the following categories of financial assets and financial liabilities at the reporting date are as follows:

Financial Assets

Cash and cash equivalents Restricted cash and cash equivalents Receivables (i)	62,234 40,872 320,844	79,782 46,367 280,406
Financial Liabilities		
Financial liabilities measured at amortised cost	36,835	36,924

(i) The amount of receivables excludes GST recoverable from ATO.

(c) FINANCIAL INSTRUMENT DISCLOSURES

Interest Rate Sensitivity Analysis

The Police Service is not subject to interest rate risk because cash and cash equivalents and restricted cash and cash equivalents are non-interest bearing and have no borrowings.

Fair Values

All financial assets and liabilities recognised in the Statement of Financial Position, whether they are carried at cost or fair value, are recognised at amounts that represent a reasonable approximation of fair value unless otherwise stated in the applicable notes.

35. FINANCIAL INSTRUMENTS (cont.)

Credit Risk

The following table details the Police Service's maximum exposure to credit risk and the ageing analysis of financial assets. The Police Service's maximum exposure to credit risk at the end of the reporting period is the carrying amount of financial assets shown below. The table discloses the ageing of financial assets that are past due but not impaired. The table is based on information provided to senior management of the Police Service. The contractual maturity amounts in the table are representative of the undiscounted amounts at reporting date.

The Police Service does not hold any collateral as security or other credit enhancements relating to the financial assets it holds.

The Police Service does not hold any financial assets that required their terms re-negotiated that would have otherwise resulted in them being past due or impaired.

36. CONTINGENT LIABILITIES

UNSETTLED LEGAL CLAIMS

The value reported represents the maximum obligation potentially payable for the claims on hand at 30 June 2014. 1,007 848 MEDICAL EXPENSES

Under Police Regulations and the current Enterprise Bargaining and Workplace Agreement, the Police Service is obliged to reimburse sworn officers for their medical expenses. Work-related medical expenses are met in full by the Police Service. Non-work-related medical expenses are reimbursed to the amount not covered by Medicare and private health providers. The total liability in respect of work-related medical costs is not able to be reliably measured at 30. June 2014

37. REMUNERATION OF AUDITOR

Remuneration payable to the Auditor General for the financial year is as follows:

Auditing the accounts, financial statements and performance indicators 180

38. REMUNERATION OF SENIOR OFFICERS

DEFINITION OF A SENIOR OFFICER

A Senior Officer means a person, by whatever the position title is called, who is concerned or takes part in the management of the agency. The agency's Senior Officers comprise uniformed members of the Police Service Command group and other senior public servants.

REMUNERATION BENEFITS

The number of Senior Officers, whose total of fees, salaries, superannuation and other benefits for the financial year, fall within the following bands:

\$	2014	2013	\$	2014	2013
50,001 - 60,000	-	1	230,001 - 240,000	-	1

41. EVENTS OCCURRING AFTER THE END OF THE REPORTING PERIOD

The Police Service is not aware of any events occurring after the reporting date that have a significant financial effect on the financial statements.

ANNUAL REPORT

2014	2014	2014
Estimate	Actual	Variation
\$'000	\$'000	\$'000

42. EXPLANATORY STATEMENT

Significant variations between estimates and actual results for income and expense as presented in the financial statement titled 'Summary of Consolidated Account Appropriations and Income Estimates' are shown below. Significant variations are considered to be those greater than 10 per cent.

(a) SIGNIFICANT VARIANCES BETWEEN ESTIMATES AND ACTUAL

(i) TOTAL APPROPRIATIONS TO DELIVER SERVICES

Service Expenditure

The variation of \$16.750 million between the 2014 Estimate and the 2014 Actual is a net result of several factors including Voluntary Separation Scheme payments to employees in 2013-14, offset by reduced GROH cost and demand pressures, savings from changes to vehicle leasing practices, salary savings attributed to separated personnel, reductions in travel expenditure, budget savings in depreciation as a result of delays in Asset Investment projects; and reduced insurance premiums due to a reduction in claims in prior years.

Variations between Estimate and Actual for the following services are driven by operational needs and circumstances that occur during the year, which necessitate the redirection of resources to meet service needs. The service mix is defined by survey results which fluctuate depending on the demands during the survey period, due to the reactive nature of policing. Subsequently, operational needs may result in diversion from the original allocation. The survey records the hours officers spent on each service. This forms the basis for actual allocations for the financial year.

Intelligence and protective services
Crime prevention and public order
Community support (non-offence incidents)

(b) SIGNIFICANT VARIANCES BETWEEN ACTUAL AND PRIOR YEAR ACTUALS			
(i) TOTAL APPROPRIATIONS TO DELIVER SERVICES			
Service Expenditure			
The variation of \$77.204 million represents the increase in total cost of service which is mainly attributable to new initiatives and normal cost increases. A significant component of the variance is attributable to normal salary rate increases to employees, in addition to costs relating to the 2013-14 Voluntary Separation Scheme, and the continuation of additional employee programs and other new initiatives, offset by ongoing efforts to meet expenditure savings targets. Further, the reactive nature of policing causes fluctuations in the internal allocation and application of resources according to the operational demands that exist at the time.

42.	EXPLANATORY STATEMENT (Cont.)			
	(ii) CAPITAL CONTRIBUTION	3,553	54,691	(51,138)
	The Asset Investment Program annual expenditures will vary each year dependant upon the planned expenditures for the various projects within the program. Normally there may be substantial variations from one year to the next. The decreased Capital Contribution in 2013-14 is representative of Western Australia Police utilising cash held for Asset Investment projects. Significant projects for 2013-14 include Information and Communications Technology programs, West Metropolitan District Accommodation upgrade and Community Safety Network.			
	(iii) CONSOLIDATED ACCOUNT INCOME			
	Revenue	629	660	(31)
	Administered Income mainly comprises of Sale of Lost, Stolen and Forfeited Property and Firearm Infringement Fines. The volumes for both, and values of stolen property auctioned can fluctuate substantially from year to year.

	iotal autilitistereu ilicome	029	000	

There were no administered assets or liabilities for the period.

Administered income and expenses are not reported by service because they cannot be reliably attributed to the services provided by the Police Service.

ANNUAL REPORT **** //

2014	2013
\$'000	\$'000

44. SPECIAL PURPOSE ACCOUNTS

Special purpose accounts includes receipts of monies, for which the Police Service only performs a custodial role. As the monies collected cannot be used for the achievement of the agency's objectives, they are not brought to account in the Statement of Financial Position. These include:

(a) FOUND MONEY TRUST

Closing Balance at 30 June 2014	466	147
Payments	347	243
Receipts	666	317
Opening Balance 1 July 2013	147	73

Purpose

To hold monies which have been found and surrendered to the Police Service, and for which the lawful owner has not been ascertained within seven days of receipt of the monies by the receiving officer.

(b) STOLEN MONIES TRUST

Closing Balance at 30 June 2014	799	413
Payments	486	1,659
Receipts	872	1,869
Opening Balance 1 July 2013	413	203

Purpose

To hold monies seized by the Police Service believed to be stolen monies pending prosecution.

Monies seized by police officers and believed to be stolen are held pending identification of the rightful owner. In the event that the funds remain unclaimed, they are dealt with in accordance with the application of the *Unclaimed Money Act 1990*.

	2014	2013
	\$'000	\$'000
