------------------	----	-----------------	----	-------------------	---

IMPORTANT

1. Licence holders who transitioned from a restricted asbestos removal licence under the *Occupational Safety and Health Act 1984* to a Class A asbestos removal licence under the *Work Health and Safety Act 2020* are required to provide copies of a Statement of Attainment for each nominated supervisor in the following courses:
 - a. CPCPCDE4008 - Supervise asbestos removal course
 - b. CPCPCDE3015 - Remove friable asbestos
2. WorkSafe will assess your application for renewal using the information you provide as well as information available in licence databases, record systems and through other sources as required.
3. A licence may not be renewed if there is insufficient evidence that **each** nominated supervisor has maintained their skills and experience. For **each** nominated supervisor officers will look for a minimum of 6 asbestos removal jobs completed in the last 3 years. These jobs must demonstrate a variety of work within the scope of the licence type.
4. If your phone, email or address details have changed you are required to update these details on this form.
5. If you reside or are located outside the state you are required to provide justification as to why circumstances exist that justify the grant of the licence.
6. You are required to apply for approval of any new nominated supervisors by separate application. Application forms can be found here:
www.commerce.wa.gov.au/worksafe/asbestos-licences
7. If your application is accepted before the expiry date of your existing licence your asbestos removal licence will remain in force while your application is being considered and until you are given notice of a decision to grant or refuse the application. You can continue to undertake asbestos removal work during this period.
8. If your licence has a condition which requires the licence holder, or a nominated supervisor of the licence holder, to undergo retraining or reassessment during the term of the licence, you are required to provide evidence that the retraining or reassessment has been completed.
9. Your licence will not be renewed if you have not completed work in the period since the licence was granted or last renewed. Licensing Officers will confirm this by checking asbestos removal work notification records. For non-friable work conducted under the former *Occupational Safety and Health Act 1984*, where a notification was not required, you are required to attach evidence of work completed.
10. When determining your application Licensing Officers will consider WorkSafe records in regards to investigations, penalties and improvement notices issued since the licence was granted or last renewed.
11. The application for renewal will be refused if false or misleading information is identified in the application.
12. Section 268 of the *Work Health and Safety Act 2020* provides for penalties of up to \$12,500 for a person who gives information that the person knows to be false or misleading in a material particular or omits any matter or thing without which the information is misleading; or who provides a document that the person knows to be false or misleading in a material particular.

Certified Safety Management System

Applicants must attach evidence that there is a safety management system (SMS) in place, certified compliant with AS/NZS ISO 45001:2018.

Evidence of certification of a safety management system can be provided in one of three ways:

1. A certificate of certification of the applicants safety management system (SMS) which Can be validated by searching the JAS-ANZ register: register.jas-anz.org/certified-organisations , or
2. A certificate of certification of the applicants SMS which has been issued by an accredited auditor who is listed on the Exemplar Global directory: exemplarglobal.org/certification-overview , or
3. Written confirmation from a person or organisation who is a qualified SMS auditor, that the applicants SMS meets the required standard and which is accompanied by satisfactory evidence of the auditor's qualifications to assess the system against the relevant standard.

The evidence provided must

1. Relate to the applicant
2. Reference that the SMS relates to asbestos removal
3. Be less than three years old
4. Certify or confirm that the SMS complies with AS/NZS ISO 45001:2018 (Occupational health and safety management systems — Requirements with guidance for use)

Evidence of certification of your safety management system attached.

This section has been left blank intentionally.

PART 2: PROBITY INFORMATION

Probity questions

For help understanding these questions visit: www.commerce.wa.gov.au/publications/application-guide-application-asbestos-removal-licence-class-and-class-b or call 1300 424 091.

1. Do you have a current asbestos removal licence in another State/Territory in Australia?

Yes: No:

2. Have you, the body corporate or any of the officers of the body corporate, ever been convicted or found guilty of an offence under Work Health and Safety legislation in Australia?

Yes: No:

3. Have you, the body corporate or any of the officers of the body corporate, ever been convicted or found guilty of any offence in relation to the unlawful disposal of hazardous waste under the *Environmental Protection Act 1986*?

Yes: No:

4. Have you, the body corporate or any of the officers of the body corporate, ever entered into an enforceable undertaking under Work Health and Safety legislation in Australia?

Yes: No:

5. Have you, the body corporate or any of the officers of the body corporate, ever been refused an asbestos removal licence in Australia?

Yes: No: N/A:

6. Have you, the body corporate or any of the officers of the body corporate, previously held an asbestos removal licence in Australia which had conditions imposed on it, or which was suspended or cancelled?

Yes: No:

7. Have you, the body corporate or any of the officers of the body corporate, ever been disqualified from applying for an asbestos removal licence in Australia?

Yes: No:

If you answered 'yes' to any of the above questions, attach details. A 'yes' response will be considered by the WorkSafe Western Australia Commissioner on the facts presented, and may not affect your application to be licensed.

N/A: Attached:
