

# Energy Transformation Strategy

Update for the Market Advisory Committee

11 June 2019

# AGENDA

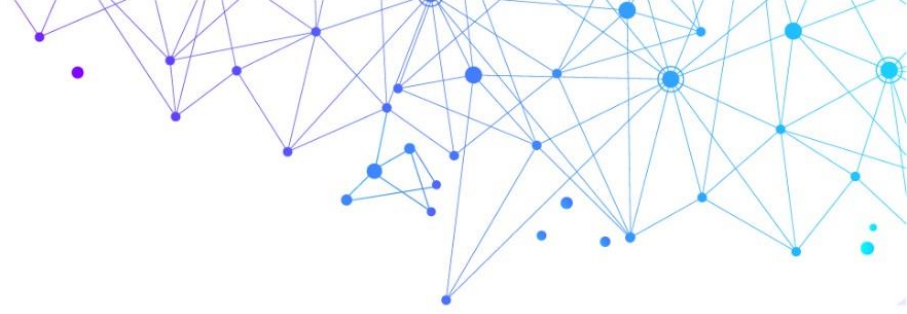

1

Overview of the Energy Transformation Strategy

2

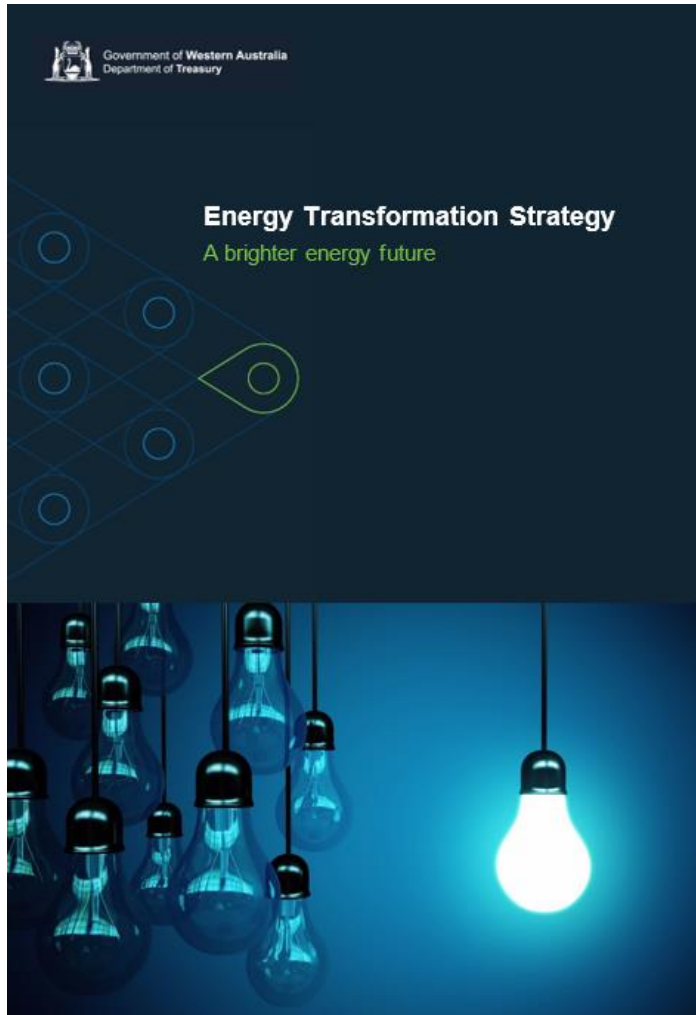

Stakeholder engagement

# Overview of the Energy Transformation Strategy

# THE ENERGY TRANSFORMATION STRATEGY

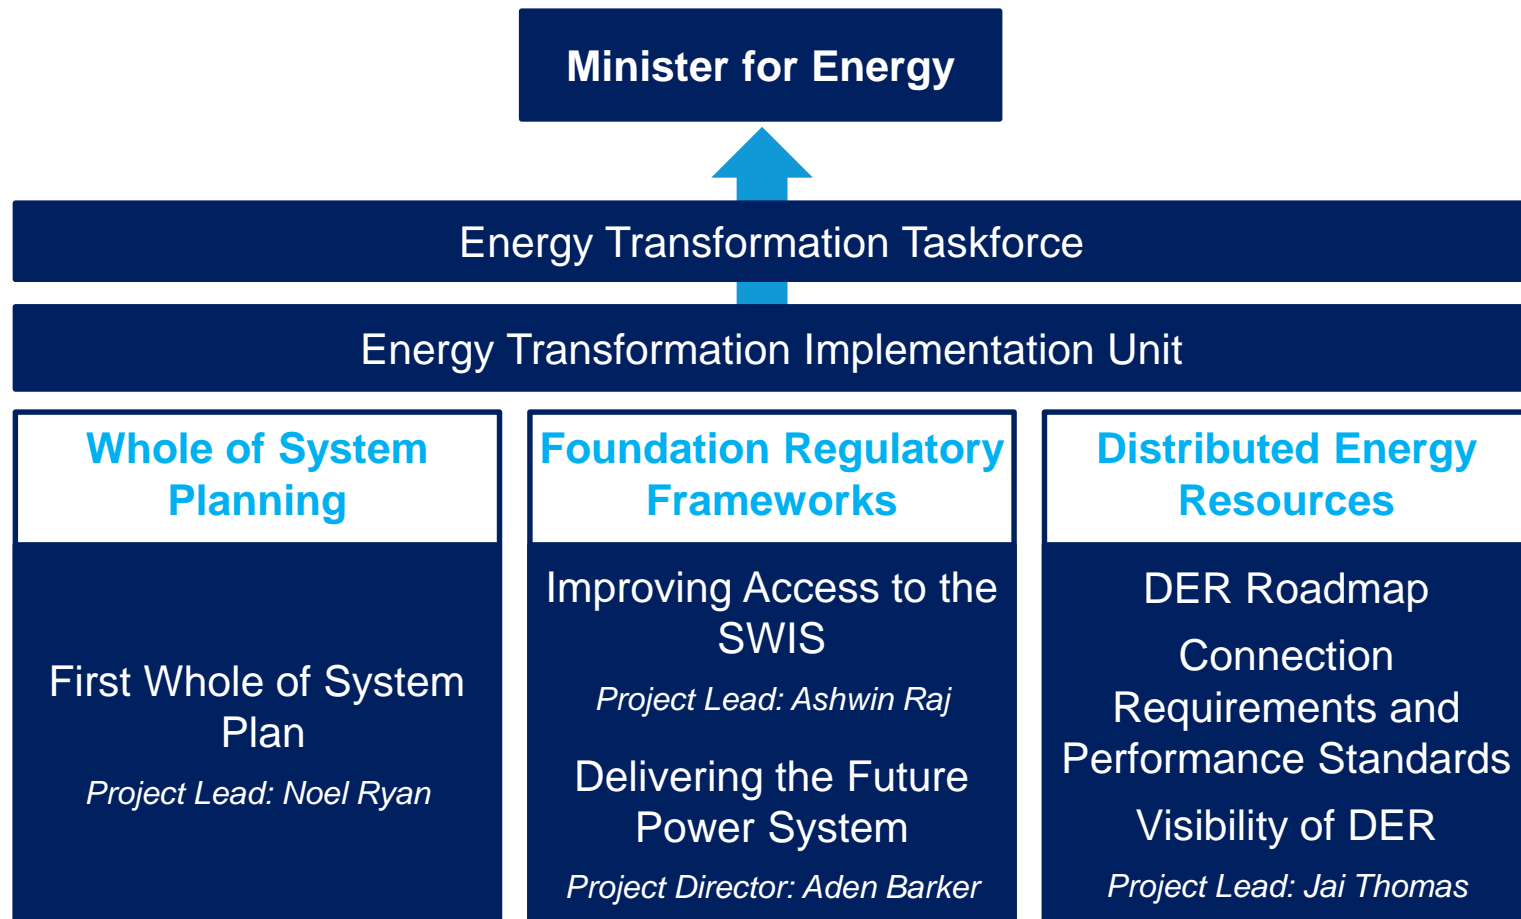

Our vision is to provide safe, secure, reliable, low-emission power to Western Australian households and businesses at the lowest sustainable cost, while allowing new technology to connect and giving people more control over their electricity use.

Our objectives are to:

- Maintain a secure and reliable electricity supply
- Ensure affordable electricity for households and businesses
- Reduce energy sector emissions
- Transition affected workers in the Collie region
- Promote local jobs and growth

# SCOPE

Two year program of work across three interrelated areas

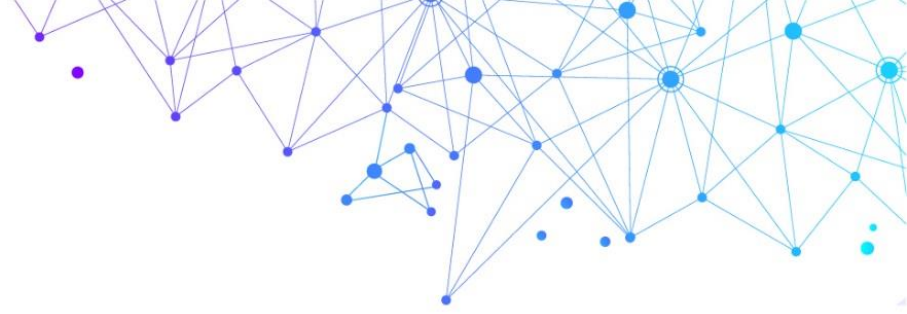

# ROLE OF THE TASKFORCE

- Provide strategic oversight and direction on the implementation of the Energy Transformation Strategy
  - Monitor the progress of the delivery of the Strategy to ensure objectives and timelines are met
  - Secure support and resources, and facilitate the removal of barriers, to ensure the Strategy is successfully delivered
  - Advise the Minister for Energy on the progress and deliverables of the Strategy
- 
- The Taskforce is supported by a dedicated business unit within the Department of Treasury – the Energy Transformation Implementation Unit

# KEY MILESTONES

# Stakeholder engagement

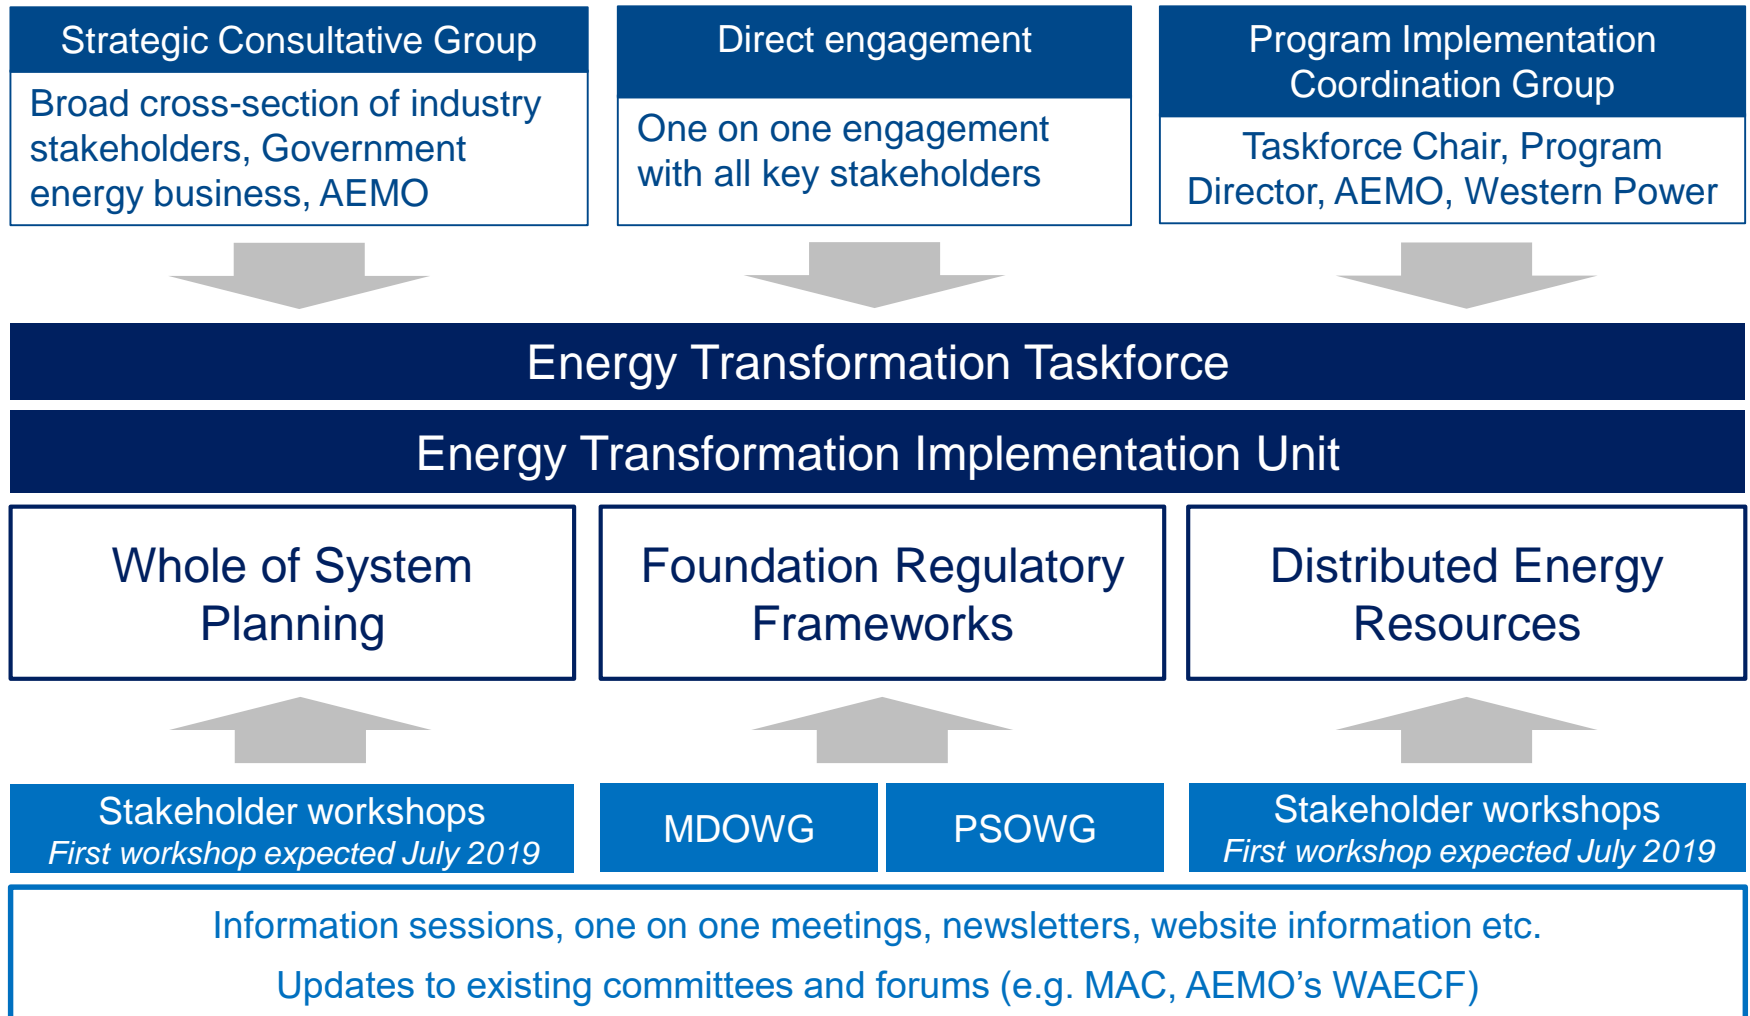

# APPROACH TO STAKEHOLDER ENGAGEMENT

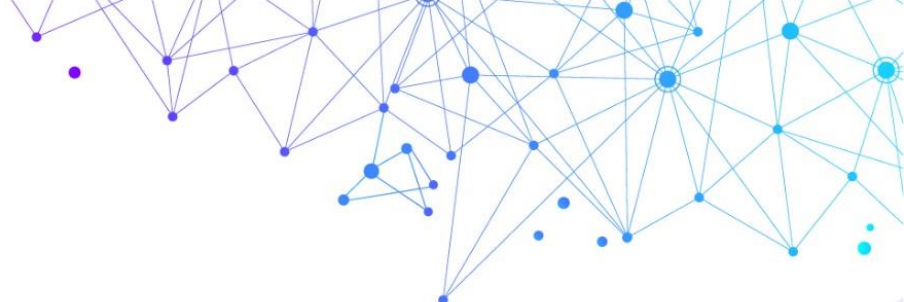

- Stakeholder engagement is critical to the successful delivery of the Strategy
- The Taskforce and Implementation Unit will adopt a transparent, structured and targeted approach to stakeholder engagement and consultation
- There will be opportunities for input from all relevant stakeholders, while recognising the tight timelines for project delivery
- Face-to-face engagement will be the preferred approach
- On occasion, public and targeted written consultation will be undertaken

# FORMS OF ENGAGEMENT

- Whole of program coordination and strategic consultative groups
- Project stream working groups
- Public information sessions and workshops
- Periodic updates to, and consultation with, existing industry stakeholder groups.
- One on one meetings
- Website
- Newsletter

# STAKEHOLDER ENGAGEMENT OVERVIEW
