Ardross Primary School P&C Association	H2O to go	\$2,000.00	The Ardross "H ₂ O 2 Go" project plans to install a new water bottle refill station. The station will be located in a strategic location, at the crossing point of: ·The Ardross Primary School sports oval; ·The new, public Nature playground; and ·Al Richardson Nature Reserve. It will be accessible to the public at all times free of charge, and will be maintained indefinitely by Ardross Primary School. A strong education/behaviour change component is part of this project.	
Shire of Wagin	Refill, Rehydrate & Recycle	\$3,000.00	Reduce the amount of plastic bottles being disposed of in and around our town and reduce the amount of plastic waste materials at our refuse site.	
Walpole Nornalup Visitor Centre	Recycle Reuse Remember	\$2,000.00	Funded the production of stainless steel water bottles for purchase by visitors to reduce the number of single use plastic bottles disposed of incorrectly in the Pioneer Park area.	 <p data-bbox="1289 976 1549 1010">Stainless steel bottle.</p>
Shire of Halls Creek	Can recycling from bush	\$4,000.00	The community was educated with litter information about recycling and not littering aluminium cans. Anglicare Halls Creek received the cans for recycling. Police have been monitoring drinking places in the bush and enforcing the <i>Litter Act 1979</i> . Approximately 100 local football players collected 10,000 cans from the bush.	 <p data-bbox="1331 1323 1549 1357">Great work team!</p>
Nannup Garden Village Inc	Value your Waste	\$4,800.00	To educate and engage with young people to see value in objects rather than throwing them out, reducing litter and infill waste. Creating practical, valuable and artistic objects out of potential waste redefines attitudes and meaning of items.	
Tangaroa Blue Foundation	WA Marine Debris Source Reduction Plan Workshops	\$5,000.00	To provide communities, councils and other stakeholders a framework that translates data collated from WA marine debris clean-ups to on-ground action that stops marine debris and pollution at the source.	
Green Skills Inc	Denmark Litter Reduction Project	\$3,000.00	Ran a pilot illegal dumping mapping and reporting project based on community participation using Google Earth to document dumping sites. Five caged trailer loads of rubbish were collected from the sites. Two workshops using litter as an art medium were conducted and the results are displayed in the area.	 <p data-bbox="1321 2130 1549 2166">Plastic lid artwork.</p>

City of Kwinana	Educating Builders and new residents about construction waste and illegal dumping in new subdivisions in the City of Kwinana.	\$5,000.00	This project proposes initiatives to educate builders and residents in new subdivisions about litter as well as monitor the success of litter prevention interventions. This project will compliment and support the City's current building litter compliance activities.	
City of Swan	Toodyay Road - Litter Awareness and Action	\$5,000.00	This project aims to raise community awareness on the causes and impacts of littering along Toodyay Road, between Roe Highway and the town of Gidgegannup and ultimately reduce the levels of litter and illegal dumping. Actions include researching and gathering data, encouraging community action and awareness and installing anti-litter signage.	
Shire of Yilgarn	Keep Yilgarn Beautiful	donation of trailer nets	Reduced the amount of roadside rubbish around Yilgarn by supplying free trailer nets to the community. The road to the tip and the Yilgarn entrance roads are now clean.	 <p>Entrance road to the tip.</p>
City of Gosnells	Carry Your Cup	\$2,500.00	During the Multicultural Food Fair visitors were invited to collect a bag of rubbish to receive a free KeepCup or re-usable stainless steel water bottle. 96 bags of rubbish were collected. 180 KeepCups and 50 re-usable water bottles were distributed to patrons. 151 votes were cast for a local area to receive a clean-up. Mary Carroll Park received the clean-up with 25 volunteers taking part collecting 63kg of rubbish.	 <p>Transition KeepCup.</p>
Eastern Metropolitan Regional Council (EMRC)	Event Recycling Trailer update and Litter Letters Moveable Display	\$4,000.00	This project consists of two main parts that will benefit the six member councils and their communities, in the region. Updating the Event Recycling Trailer utilised by the member councils for various public events and building 'Litter Letters", a large, 3D, movable litter display for use throughout the region.	

Care for Hedland Environmental Association Inc.	Hedland Families Litter Prevention Campaign (Campaign)	\$5,000.00	The Campaign will focus of families, particularly children by encouraging them to use rubbish bins and participate in recycling. Care for Hedland requests funding for animal-shaped bins, half the cost of bringing Captain Clean Up to Hedland to visit schools and plaques to put onto can recycling cages which will be provided by Goodline as an in-kind donation. The plaques will provide long-term recognition to project sponsors including Sell and Parker, Goodline, Town of Port Hedland (ToPH) and Keep Australia Beautiful Council (KABC).	
City of Cockburn	Go Fishing-Don't Blow It / Fish for the Future-Don't Blow It	\$6,000.00	Development and production of an online media clip, targeting recreational fishers. Aim of project is to promote awareness and create publicity around the issue of recreational fishing litter, with overall aim of generating long term behaviour change.	
Greenbushes Ratepayers and Residents Association	Water Without Waste	\$3,346.36	Greenbushes Tidy Towns Committee Waster Without Waste water station project will help educate the community about reducing reliance on bottled water through the use of water re-fill options at community events in the Shire of Bridgetown-Greenbushes.	
Shire of Morawa	Plastic bag Free Morawa	\$5,000.00	Plastic Bag Free Morawa. Breaking new ground in sustainability. The purpose of this campaign is to significantly reduce the amount of local bags within the Shire of Morawa.	
Shire of Wandering	Paper, Bottles, Cans, Plastic... Recycle them all, it's FANTASTIC!	\$1,363.64	The Shire of Wandering will promote and conduct an education project to encourage the community to recycle within their household and business. The project is recommended with the addition of a new waste transfer station in the community.	
Toodyay Farmers Market	Toodyay Sustainability Station	\$5,000.00	The Toodyay Farmers Market would like to introduce a sustainability station to use at our monthly event and other non-related events in the region. The sustainability station will be done from a quirky horse float and contain a refillable water dispenser, mug library and wash station, along with having an attached awning area for waste reduction awareness.
