

# KEEP AUSTRALIA BEAUTIFUL COMMUNITY LITTER GRANTS

## DOLPHIN QUAYS CLEAN-UP - MANDURAH OFFSHORE FISHING & SAILING CLUB

### TARGET ISSUE

Expand engagement into litter management and environmental care after a recent clean-up revealed a significant amount of litter on the waterway bottom and accumulations on the beach precincts within the compound.

### TARGET AREA

Dolphin Quays Marina

### TARGET AUDIENCE

Local Community

### SOLUTION

An essential component will be the promotion of clean-up activities to encourage wider community involvement. Promotional materials will raise awareness of problems caused by litter, specifically the problems presented by waterborne and submerged litter. The project will involve providing compressed air for volunteer divers to remove air availability as a restriction. The project will also better equip surface clean-up teams to allow for more regular extensive clean-up events within the Marina waterways.

### PARTNERSHIP

- Mandurah Offshore Fishing and Sailing Club
- Volunteers

**2023/2024**

**\$5,000.00**
