Dear Minister

Re: Review of the *Construction Industry Portable Paid Long Service Leave Act 1985*

The National Fire Industry Association of Australia Ltd (**NFIA**) is the peak association operating in the Fire Protection sector. We represent employers, suppliers and industry stakeholders who work at the frontline of Fire Protection, with over 80 percent of the commercial Fire Protection work undertaken in Australia being completed by NFIA Members.

Thank-you for the opportunity to respond as part of the review of the *Construction Industry Portable Paid Long Service Leave Act 1985 (the Act)*.

At this stage in the Review, we have no issues to raise regarding whether the overarching intent of the Act is being met for the contemporary construction industry and its workers. However, we would welcome further opportunities for engagement with the Review if amendments to the scheme are proposed.

In our conversations with Members affected by the Act, we were advised however that improvements to MyLeave portal functionality and useability would be helpful for portal-users.
