Explanatory Notes

^{1.} Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.

^{2.} A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the relevant reporting period divided by the number of recorded offences reported in the same time period.

relevant reporting period divided by the number of recorded offences reported in the same time period.

3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.

^{4.} The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. - 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the
- $relevant \ reporting \ period \ divided \ by \ the \ number \ of \ recorded \ of fences \ reported \ in \ the \ same \ time \ period.$ 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

^{1.} Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.

^{2.} Rate per 100,000 people is based on the Australian Bureau of Statistics Estimated Resident Population as at June 2017, with the population of Metropolitan Region being 2,039,795.

^{3.} The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the relevant reporting period divided by the number of recorded offences reported in the same time period.
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the relevant reporting period divided by the number of recorded offences reported in the same time period.
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

^{1.} Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.

^{2.} Rate per 100,000 people is based on the Australian Bureau of Statistics Estimated Resident Population as at June 2017, with the population of Armadale District being 233,951.

^{3.} The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the relevant reporting period divided by the number of recorded offences reported in the same time period.
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

^{1.} Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.

^{2.} Rate per 100,000 people is based on the Australian Bureau of Statistics Estimated Resident Population as at June 2017, with the population of Cannington District being 215,414.

^{3.} The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the relevant reporting period divided by the number of recorded offences reported in the same time period.
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes														·

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the $relevant \ reporting \ period \ divided \ by \ the \ number \ of \ recorded \ of fences \ reported \ in \ the \ same \ time \ period.$
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use $broader\ or\ different\ definitions\ to\ capture\ similar\ or\ like\ of fence\ types.\ Please\ refer\ to\ the\ Glossary\ for\ more\ information.$

Explanatory Notes

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the relevant reporting period divided by the number of recorded offences reported in the same time period.
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

^{1.} Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.

^{2.} Rate per 100,000 people is based on the Australian Bureau of Statistics Estimated Resident Population as at June 2017, with the population of Mandurah District being 274,238.

^{3.} The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the relevant reporting period divided by the number of recorded offences reported in the same time period.
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

^{1.} Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.

^{2.} Rate per 100,000 people is based on the Australian Bureau of Statistics Estimated Resident Population as at June 2017, with the population of Midland District being 253,787.

^{3.} The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the $relevant \ reporting \ period \ divided \ by \ the \ number \ of \ recorded \ of fences \ reported \ in \ the \ same \ time \ period.$
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the relevant reporting period divided by the number of recorded offences reported in the same time period.
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Explanatory Notes

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. Rate per 100,000 people is based on the Australian Bureau of Statistics Estimated Resident Population as at June 2017, with the population of Perth District being 143,503.
- 3. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the $relevant \ reporting \ period \ divided \ by \ the \ number \ of \ recorded \ of fences \ reported \ in \ the \ same \ time \ period.$
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use $broader\ or\ different\ definitions\ to\ capture\ similar\ or\ like\ of fence\ types.\ Please\ refer\ to\ the\ Glossary\ for\ more\ information.$

^{2.} Rate per 100,000 people is based on the Australian Bureau of Statistics Estimated Resident Population as at June 2017, with the population of Goldfields-Esperance District being 55,352.

^{3.} The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. - 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the $relevant \ reporting \ period \ divided \ by \ the \ number \ of \ recorded \ of fences \ reported \ in \ the \ same \ time \ period.$
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the $relevant \ reporting \ period \ divided \ by \ the \ number \ of \ recorded \ of fences \ reported \ in \ the \ same \ time \ period.$
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Explanatory Notes

^{1.} Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.

^{2.} Rate per 100,000 people is based on the Australian Bureau of Statistics Estimated Resident Population as at June 2017, with the population of Kimberley District being 36,127.

^{3.} The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the $relevant \ reporting \ period \ divided \ by \ the \ number \ of \ recorded \ of fences \ reported \ in \ the \ same \ time \ period.$
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the relevant reporting period divided by the number of recorded offences reported in the same time period.
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the relevant reporting period divided by the number of recorded offences reported in the same time period.
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

- 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. Rate per 100,000 people is based on the Australian Bureau of Statistics Estimated Resident Population as at June 2017, with the population of South West District being 180,555.
- 3. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. - 1. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.
- 2. A sanctioned offence is an offence that has a sanction outcome in the reporting period regardless of when the offence was originally reported. The Sanction Rate is based on all offences with a sanction outcome in the $relevant \ reporting \ period \ divided \ by \ the \ number \ of \ recorded \ of fences \ reported \ in \ the \ same \ time \ period.$
- 3. The Sanction Rate may exceed 100% due to there being more offences with a sanction outcome in a reporting period than offences recorded during the same period.
- 4. The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

^{1.} Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: No Criminal Offence', 'Offence Substituted' or 'False Report'.

^{2.} Rate per 100,000 people is based on the Australian Bureau of Statistics Estimated Resident Population as at June 2017, with the population of Wheatbelt District being 54,073.

^{3.} The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.

Explanatory Notes

- (a) Statistics are provisional and subject to revision.
- (b) From July 2017, offences are defined as 'Reported Offences'. Reported offences are all offences reported to or becoming known to police within the relevant time period that do not have an Offence Outcome Status Code of: 'No Criminal Offence', 'Offence Substituted', or 'False Report'. Prior to July 2017, offences were defined as 'Verified Offences'. Verified offences were all offences reported to or becoming known to police within the relevant time period that have not been determined to be a 'False Report' or 'Mistakenly Reported'. The number of reported offences is not within the direct control of the police.
- (C) Changes to recording and reporting practices implemented between May and July 2017 affect the crime statistics presented in this document. As a result, comparison with historical data should be done with caution.
- (d) This document contains statistical information on selected recorded offences reported to or becoming known to police, and resulting in the submission of an incident report in the Frontline Incident Management System (IMS). It excludes offences against public order, such as disorderly conduct and offences against the Firearms Act 1973, Liquor Licensing Act 1988 and a number of other offences against the statute laws of this State and the Commonwealth.
- (e) The number of recorded offences for a period comprises all recorded offences reported during that period and may include recorded offences committed during earlier periods.
- (f) Proactive policing strategies undertaken by the police to encourage the reporting of certain offences, such as family violence and sexual assault, and the proactive targeting by the police of certain offences will increase the number of offences reported or detected for a given period. However, a decrease in the number of reports for a targeted offence may occur in subsequent periods if the targeting has been successful or a different offence becomes a replacement target.
- (g) The offence classification used for the publishing of WA Police Force crime statistics is based on a combination of the Australian and New Zealand Standard Offence Classification (2011), WA Legislation, and operational reporting requirements. Category names may be the same as referred to in WA legislation, however for the WA Police Force crime statistics reporting purposes, categories may use broader or different definitions to capture similar or like offence types. Please refer to the Glossary for more information.
- (h) Location data is recorded for all offences. However, if the location is unable to be mapped using WA Police Force geographical mapping tables, the offence will appear in WA State level data, but not appear at region level.
- (i) A sexual offence is defined as being 'recent' if it is reported to police within 90 days of the offence occurring, whereas a 'historical' sexual offence is reported to police more than 90 days after the offence occurred.
- (j) Circumstances of aggravation are factors present during an offence that escalate the severity. For example, if during a robbery offence the offender threatens to kill any person, it is considered 'aggravated robbery'. Due to recording limitations, offences committed under circumstances of aggravation are not indicated in this report.
- (k) 'Stealing of Motor Vehicle' excludes attempts to steal a motor vehicle, damaging or tampering/ interfering with a motor vehicle, or the theft of motor vehicle parts or the contents of a motor vehicle. A motor vehicle:
 - Is built to be propelled by a motor that forms part of the vehicle;
 - Is self-propelled that is not operated on rails and includes a trailer, semi-trailer or caravan while attached to a motor vehicle;
 - Does not include a power assisted pedal cycle; and
 - Must be eligible for registration for use on public roads.
- (I) 'Stealing' excludes: stealing associated with a burglary.

- (p) 'Stealing From Other Premises or Place' is a new series from June 2017. This offence type did not exist prior to this date.
- (q) 'Property Damage' excludes circumstances where the damage was caused facilitating another offence. For example, breaking a window to commit burglary.
- (r) 'Detected Offences' comprise categories of offences such as 'Drug Possession' which are usually detected by, rather than reported to, police. Consequently, any changes in detected offence figures may be influenced by police activity and/or the prevalence of the offences occurring in the community.
- 'Miscellaneous Offences' comprise offence categories where the number of reported and detected offences is dependent on external factors. For example, the number of 'Fraud' and 'Graffiti' offences are dependent on reporting practices and recording issues by Government agencies, local government authorities and private enterprises. The number of 'Breach of Violence Restraint Order' offences is affected by enhancements to family violence legislation and ongoing Government and police strategies.
- (t) 'Fraud (Credit Card)' is a new series from June 2017. This offence type did not exist prior to this date.
- (u) 'Fraud (Not Elsewhere Classified)' has a series break at June 2017. Prior to this date this offence type included credit card fraud.
