

BEACHHEAD LOGISTICS QUAD CHART

CONCEPT AND CAPABILITIES

Beachhead Logistics (BHL) provides a marine fleet, equipment and procedures needed to conduct:

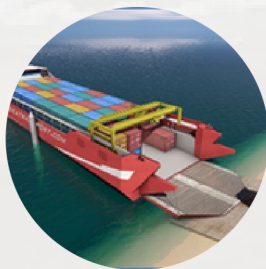

- *Logistics Over The Shore* (LOTS)
- Temporary port operations in areas that have no fixed port facilities or deep draft piers.

BHL can provide a variety of marine vessels as well as:

- ship-to-shore barges,
- landing craft, portable causeways and piers, and
- special handling equipment for moving cargo over the beach and inland to marshalling yards for control and onward distribution.

WHY BEACHHEAD OUR DISCRIMINATORS

- Australian privately owned
- Veteran ownership and 50% of employees are veterans
- Experts in maritime logistics and temporary ports

WHAT WE DO

BHL provides support to defense partners with littoral manoeuvre capability requirements in an (*uncontested* environment). BHL does this through the provision of LCTs, temporary ports infrastructure, Faun systems, Rough Terrain MHE, fuel systems, and beach matting to operational units immediately after a successful beach lodgment, allowing critical amphibious warfare units to reconstitute and reposition for the next operational phase.
