Part 3 – Reporting of gas incidents .....	47
Appendix A – Extract from the Gas Standards (Gasfitting and Consumer Gas Installations) Regulations 1999 .....	49

# 1. Preface

This Gas Service Logbook has been prepared to assist consumers and gas fitters in fulfilling their obligations under the Gas Standards (Gasfitting and Consumer Installations) Regulations 1999 [Regulations] in relation to servicing of industrial and commercial gas-fired appliances and pipework.

# 2. Purpose

This Gas Service Logbook has been issued by the Director of Energy Safety as a means of recording information about the servicing of a consumer's gas installation by a registered gas fitter.

Use of this Gas Service Logbook for recording servicing work by a gas fitter satisfies the requirement of Regulation 23 of the regulations as an alternative means of recording servicing information for a consumer's installation.

Use of this Gas Service Logbook assists a consumer (owner/operator) of a Type B gas appliance and its associated gas piping systems in satisfying Regulation 36(4A).

This Gas Service Logbook does not apply to premises or installations where the owner/operator holds a Gasfitting Authorisation. Servicing work carried out under an authorisation must be recorded in a 'Gasfitting Record Book' that is specifically issued by the Director of Energy Safety for use under the authorisation.

# 3. Meanings

**Registered gas fitter** – In relation to doing or supervising gasfitting work, means a person who is registered as the holder of a certificate of competency, a permit or authorisation to do or supervise the work.

**Servicing** – In relation to a consumer's installation means:

- a) maintenance involving the adjustment and cleaning of any appliance or apparatus in the installation in accordance with the recommendations of the manufacturer; or
- b) repair involving the exchange of components but not requiring modification of the installation.

# 4. Retention of Gas Service Logbook

The Gas Service Logbook is to be retained on site in a specific location, kept in good order with all entries legible and indelible. The Gas Service Logbook must be available at the request of an Inspector (Gas).

# 5. Information to be recorded

To satisfy the requirements of the regulations, the person (owner/operator) responsible for the installation must ensure that the following details are included and recorded in of the Gas Service Logbook, which is divided into three parts, as follows:

Part 1: List of gas appliances and apparatus.

Part 2: Recording of servicing work by registered gas fitters.

Part 3: Reporting of gas incidents.

The details that are required by the gas fitter for each part are outlined in the following clauses.

## 5.1 **Part 1: List of gas appliances and apparatus**

Each gas appliance and its associated pipework and apparatus must be fully described and the location on the site stated. Reference to a site drawing showing the location of gas appliances and associated apparatus would assist in this requirement.

## 5.2 Part 2: Recording of servicing work by registered gas fitters

The owner/operator for the installation must ensure that the following details are included and recorded in of the Gas Service Logbook by the gas fitter carrying out the work:

- The date the work was completed.
- Gas fitter's name and licence number.
- Description of gasfitting work carried out, including identification of appliance.  
This work should include all servicing work carried out on the gas appliances, valves and pressure regulating equipment, flues ventilation systems and any work associated with the safe operation of gas systems, for example work on burner management system and electrical work.
- Certification from the gas fitter that the gasfitting work meets the requirements of the regulations.

Where a secure electronic database is used on site for recording servicing, the gas fitter must enter the full details outlined in the Gas Service Logbook or cross reference in the book exactly where this record is kept in the secure site database. Key site personnel must make available to an inspector (Gas) the recording of the gasfitting work entered into the secure electronic database. Accurate and accessible records are essential for reporting.

Approved Recording of servicing work form is included in Part 2 of the Gas Service Logbook.

## 5.3 Part 3: Reporting of gas incidents

Gas incidents must be reported to the Director under Regulation 42(1) of the regulations, which states the following:

*If an incident that causes or is likely to cause injury to a person or damage to a property occurs, a person who is aware of the incident must immediately report it:*

- a) *to the relevant gas supplier and the Director; or*
- b) *to the Director, if:*
  - i) *The gas installation is a mobile engine or is on a caravan or marine craft; or*
  - ii) *The relevant gas supplier is not identifiable.*

An approved Reporting of gas incidents form is included in Part 3 of the Gas Service Logbook.

## 6. Further information

If you require further information on the use of the Gas Service Logbook, please contact the Gas Inspection Branch of EnergySafety.

# Part 2 - Recording of gasfitting service work

The use of Part 2 for the recording of service work by licensed gas fitters satisfies the requirements of Regulation 23

Recording of servicing work example:

<b>Date work completed:</b> 10.06.2012	<b>Gas fitter's name:</b> Dick Smythe	<b>Gas fitter's licence number:</b> GF 99999
<b>Description of gasfitting work carried out:</b> Replaced existing gas water supply pipe outside of the Boiler House with a new gas pipe certified by a Gas Fitter (Certificate No. 12345).		
I confirm that this gasfitting work complies with the Gas Standards Act 1972 and its regulations.  Gas fitter's signature: <i>Steve Wonderman</i>		<b>Date:</b> 11.06.2012

## Recording of gasfitting service work

Date work completed:	Gas fitter's name:	Gas fitter's licence number:

# Part 3 - Reporting of gas incidents

Regulation 42 and 42A of the Gas Standards (Gasfitting and Consumer Gas Installations) Regulations 1999 state the requirements for reporting, as reproduced below:

## **Regulation 42. Certain incidents, duty to report**

- (1) If an incident that causes or is likely to cause injury to a person or damage to property occurs, a person who is aware of the incident must immediately report it –
- (a) to the relevant gas supplier and the Director; or
  - (b) to the Director, if –
    - (i) the gas installation is a mobile engine or is on or in a caravan or marine craft; or
    - (ii) the relevant gas supplier is not identifiable.

## **42A. Unsafe gas installations, gas fitters to report**

- (1) If a gas fitter, in the course of work as a gas fitter, becomes aware of a defect that the gas fitter considers renders the gas installation, or a part of it, unsafe to use, the gas fitter must immediately notify the following of the existence and nature of the defect –
- (a) the consumer for whom the gasfitting work was done;
  - (b) the gas supplier or (if the gas installation is a mobile engine, is on or in a caravan or marine craft or the relevant gas supplier is not identifiable) the Director.

# Appendix A - Extract from the Gas Standards (Gasfitting and Consumer Gas Installations) Regulations 1999

Section 23 of the Gas Standards (Gasfitting and Consumer Gas Installations) Regulations 1999 is reproduced as follows:

## 23. Servicing gas installations, gas fitters' duties as to

- (1) When a gas fitter services a consumer's gas installation the gas fitter must record the service information.
- (2) The service information must be —
  - (a) clearly and legibly displayed in permanent form on a badge or label attached to the consumer's gas installation; or
  - (b) recorded in accordance with an approval under subregulation (3).
- (3) The Director may, in a particular case or class of case, approve in writing another means of recording service information for a consumer's gas installation.
- (4) In this regulation —

**service information**, in relation to the servicing of a consumer's gas installation, means —

  - (a) the date that the servicing took place; and
  - (b) the identification number endorsed on the certificate of competency, permit or authorisation held by the registered gas fitter who did or supervised the servicing.
