JUNJUWA LAYOUT PLAN 1

Junjuwa Layout Plan 1 was prepared in 2004 by consultants Hames Sharley. The Layout Plan was endorsed by the resident community in February 2004, by the Shire of Derby West Kimberley in July 2004 and by the WAPC in April 2008.

The background report that was prepared at that time is now significantly out-of-date. The map-set, however, is generally as per the draft prepared at that time.

The attached text is primarily for the purposes of version control, supporting the map-set.

Plan Date : 29 February 2004	WAPC : 8 April 2008
Proponent : Department of Planning	Endorsed Requires Endorsement : WAPC only – minor amendment

Reason for the Amendment

The Department of Planning, on behalf of the Western Australian Planning Commission (WAPC), is the custodian for Layout Plans prepared under State Planning Policy 3.2, including the Junjuwa Layout Plan 1.

Since the publication of that Policy in August 2000 all Layout Plan map-sets have been prepared using a variety of computer-aided-design (CAD) formats. All Layout Plan map-sets have now been converted to a common user geographic information systems (GIS) format, including the Junjuwa Layout Plan 1.

This conversion process has required a comprehensive re-development of the map-set and includes a number of data and content upgrades. This may include the establishment of new Settlement Layout lots (SL-lots), the inclusion of recommended settlement zones, modification to ensure land-use areas accord with Aboriginal Settlements Guideline 1, inclusion of drinking water source protection areas, incorporation of updated cadastre, and many other general improvements.

Approved

This is a minor amendment as the myriad changes made to content and illustration are of a technical nature. As such, under provision 6.14 the endorsement of the WAPC only is required.

To support that development the land-use category needs to be changed from 'commercial' to 'community' and a portion of SL-lot 200 needs to be amalgamated into SL-lot 114. A spatial upgrade to match SL-lots 50, 51A and 59A with existing development is required.

4. SL-lots 200 & 43	Amalgamate portion of SL-lot 200 into SL-lot 43 to match existing development.
5. Junjuwa recommended settlement zone	Realign the Junjuwa recommended settlement zone to align with the cadastre of the western side of Forrest Road, and align with the cadastre of the northern side of Scrivener Road
6. SL-lot 303	Remove SL-lot 303 as it is external to the Junjuwa recommended settlement zone
7. SL-lots 23-27 & Park St	Merge SL-lots 23-27 and Park Street, create new SL-lot 310 as "Residential".
