

Road Safety Community Grants Program Approved Project and Event Grants in 2021/22

The Government of Western Australia makes funds available from the Road Trauma Trust Account (RTTA) for community initiatives that support road safety advocacy to reduce road trauma through harnessing the knowledge, expertise, capacity, and connection in the WA community.

In 2022, we also acknowledge the valued contribution from the Royal Automobile Club (RAC) who partnered with the Road Safety Commission to provide community grant funding to support road safety activities across the State for National Road Safety Week.

We thank all grant recipients who have collaborated with their communities to support local road safety initiatives, events, and projects that drive positive change in behaviours and attitudes to reduce trauma, injury, and death on Western Australian roads.
